Outline

- 1) Internet – Two-Thirds of a Generation In...
- 2) Key Internet Trends
- 3) Re-Imagining Continues...
- 4) America's Evolving Work Environment...
- 5) Big Internet Markets = China / India
- 6) Public / Private Company Data
- 7) One More Thing...
- 8) Ran Outta Time Thoughts / Appendix

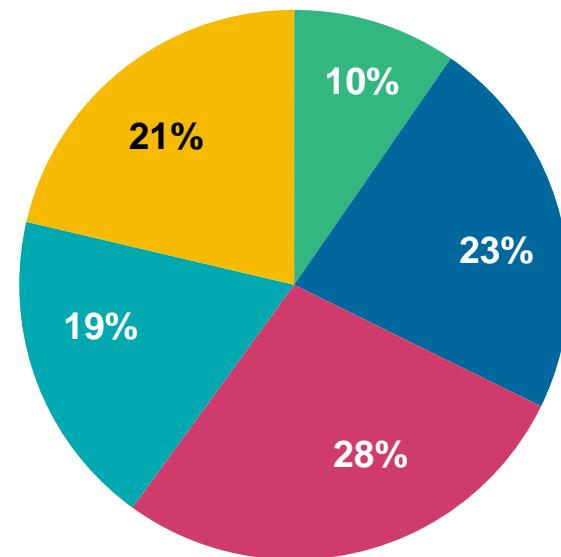

**INTERNET TRENDS –
TWO-THIRDS OF A GENERATION IN...
TWO-THIRDS OF NEXT GENERATION OUT...**

Internet Users – 1995 → 2014... <1% to 39% Population Penetration Globally

1995
35MM+ Internet Users
0.6% Population Penetration

2014
2.8B Internet Users
39% Population Penetration

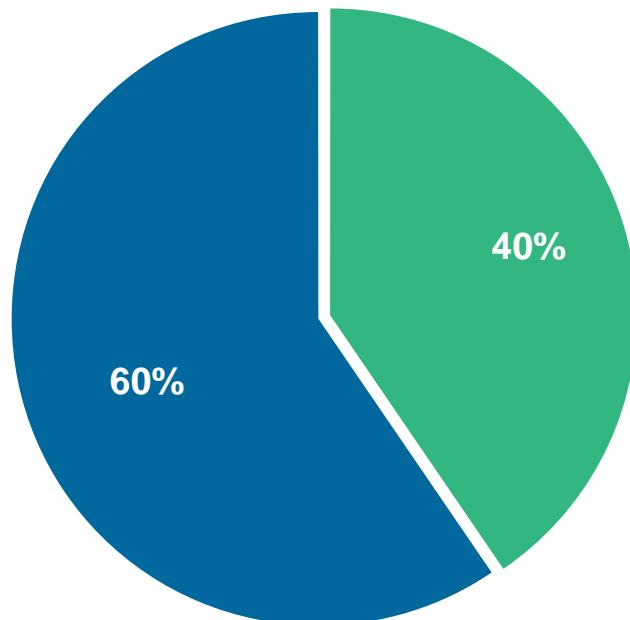

■ USA ■ China ■ Asia (ex. China) ■ Europe ■ Rest of World

Mobile Phone Users – 1995 → 2014... 1% to 73% Population Penetration Globally

1995
80MM+ Mobile Phone Users
1% Population Penetration

2014
5.2B Mobile Phone Users
73% Population Penetration

■ Smartphone ■ Feature Phone

Public Internet Company Market Capitalizations – 1995 → 2015...

Top 15 Companies by Market Capitalization = 1995 @ \$17 Billion → 2015 @ \$2.4 Trillion

Global Public Internet Companies, Ranked by Market Capitalization

As of December, 1995

	Company	Home Country	Market Cap. (\$MM)
1	Netscape	USA	\$5,415
2	Apple	USA	3,918
3	Axel Springer	Germany	2,317
4	RentPath	USA	1,555
5	Web.com	USA	982
6	PSINet	USA	742
7	Netcom On-Line	USA	399
8	IAC / Interactive	USA	326
9	Copart	USA	325
10	Wavo Corporation	USA	203
11	iStar Internet	Canada	174
12	Firefox Communications	USA	158
13	Storage Computer Corp.	USA	95
14	Live Microsystems	USA	86
15	iLive	USA	57
Total Market Cap of Top 15			\$16,752

As of May, 2015

	Company	Home Country	Market Cap. (\$MM)
1	Apple	USA	\$763,567
2	Google	USA	373,437
3	Alibaba	China	232,755
4	Facebook	USA	226,009
5	Amazon.com	USA	199,139
6	Tencent	China	190,110
7	eBay	USA	72,549
8	Baidu	China	71,581
9	Priceline.com	USA	62,645
10	Salesforce.com	USA	49,173
11	JD.com	China	47,711
12	Yahoo!	USA	40,808
13	Netflix	USA	37,700
14	LinkedIn	USA	24,718
15	Twitter	USA	23,965
Total Market Cap of Top 15			\$2,415,867

User Control of Content Up Significantly – 1995 → 2015

Evolution of Content Discovery, 1975 – 2015, per Nielsen

Impact of Internet Has Been Extraordinary & Broad... But – in Many Ways – It's Just Beginning

KEY INTERNET TRENDS

Global Internet User + Smartphone Subscription Growth = Good, But Growth Rate Continues to Slow*

- **Internet User Growth = Solid, But Slowing**

@ 2.8B, +8% in 2014 vs. +10% in 2013, +11% in 2012

Net New User Additions = ~Flat @ ~200MM in 2014 / 2013 / 2012

China Users = +7%, USA = +2%, India = +33%, Japan = Flat, Brazil = +4%

- **Smartphone Subscription Growth = Strong, But Slowing**

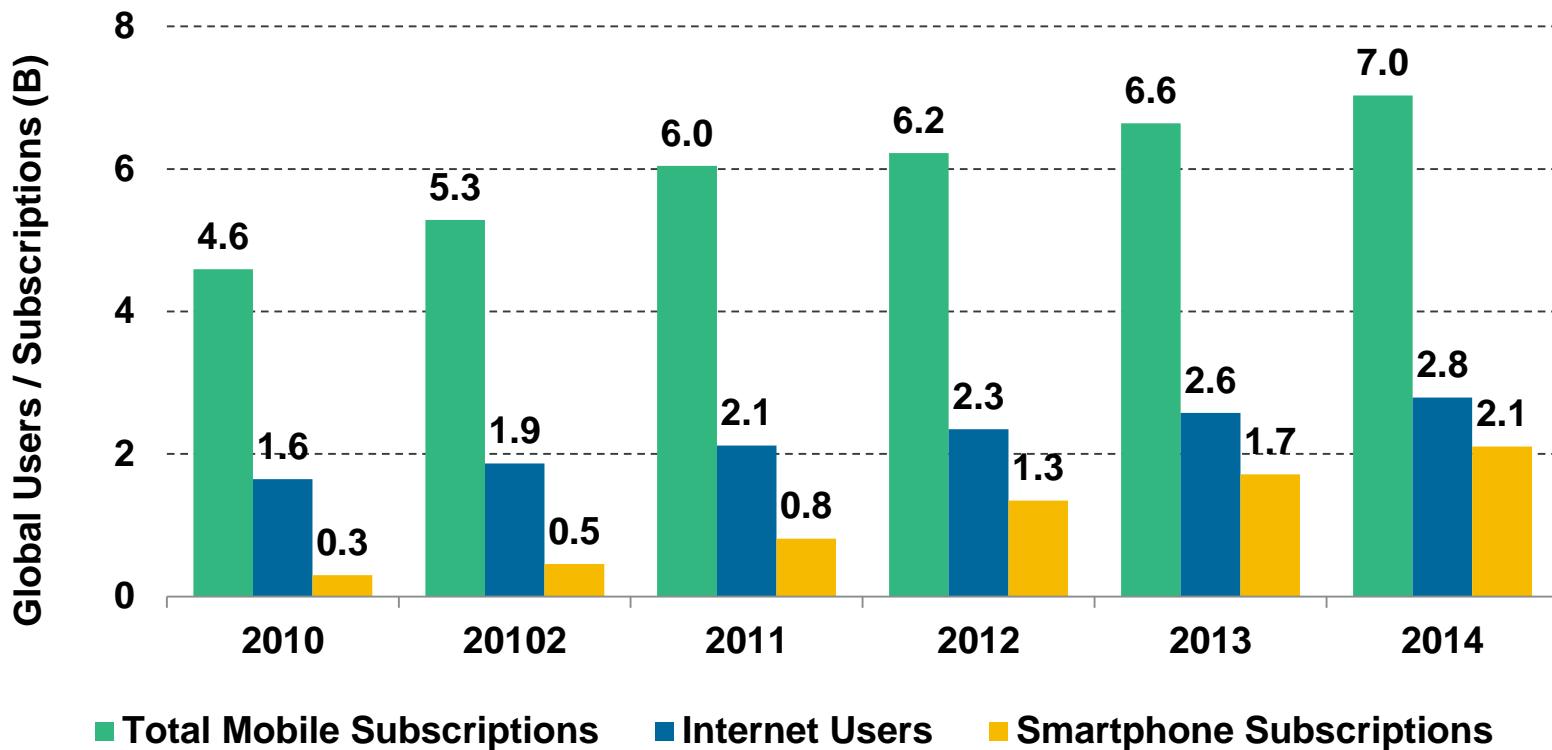

@ 2.1B, +23% in 2014 vs. +27% in 2013, +65% in 2012

Net New Sub Additions = ~Flat @ ~370MM+ in 2014 / 2013

China Subs = +21%, USA = +9%, India = +55%, Japan = +5%, Brazil = +28%

Incremental Internet + Smartphone Users = Harder to Garner Owing to Phase in Adoption Cycles...

Global Smartphone Subscriptions @
76% Penetration of Internet Users
30% Penetration of Mobile Subscriptions

...Incremental Internet + Smartphone Users = Harder to Garner Owing to Dependence on Developing Markets

***Developing Markets Tend to Have Lower
GDP per Capita / Spending Power / Infrastructure***

\$44K = Average GDP Per Capita...

In 5 Countries with >50MM Population & ~ / >50% Smartphone Sub Penetration...

USA / Japan / Germany / UK / France

\$13K = Average GDP Per Capita...

In 16 Countries* with >50MM Population & ~ / < 50% Smartphone Sub Penetration...

China / India / Brazil / Indonesia / Russia / Mexico / Philippines / Thailand / Italy / Turkey /
Nigeria / Vietnam / Egypt / Iran / Pakistan / Myanmar

**Global Internet Usage (Data Traffic) Growth Strong =
+21% Y/Y Aided by Mobile + Video**

Consumer Internet Traffic, Global =

+21% in 2014 vs. +24% in 2013, +31% in 2012

Consumer Internet Video Traffic, Global =

64% of consumer traffic in 2014 vs. 62% in 2013, 57% in 2012

Mobile Data Traffic, Global =

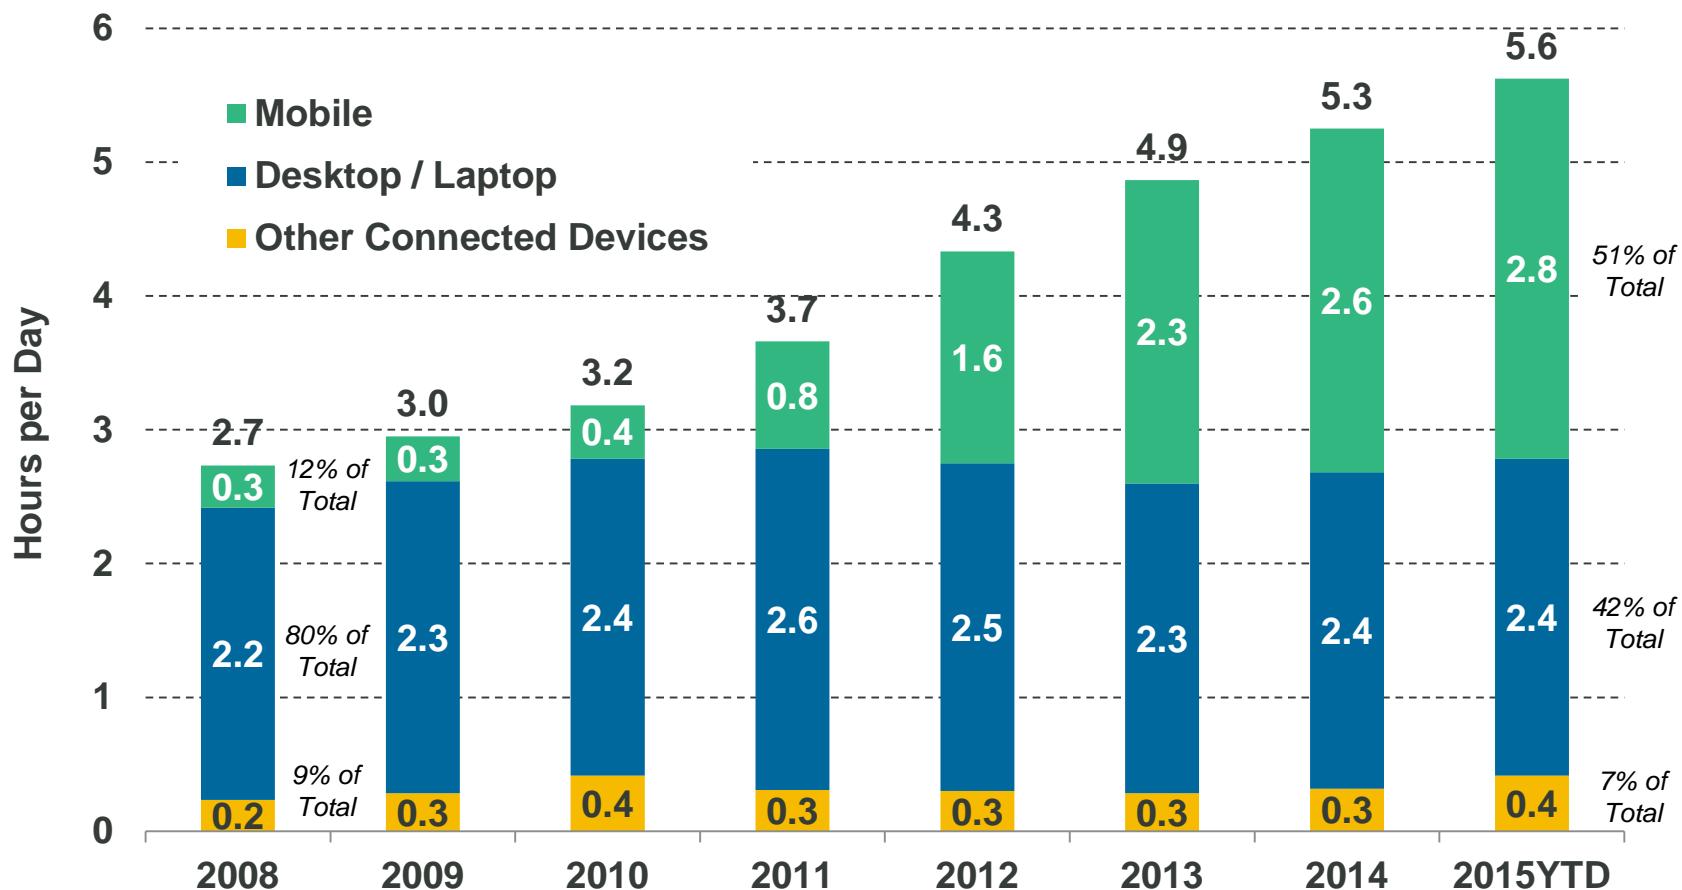

+69% in 2014 vs. +81% in 2013, +70% in 2012

Mobile Video Traffic, Global =

55% of mobile traffic vs. 52% in 2013, 50% in 2012

Internet Usage (Engagement) Growth Solid
+11% Y/Y = Mobile @ 3 Hours / Day per User vs. <1 Five Years Ago, USA

Time Spent per Adult User per Day with Digital Media, USA, 2008 – 2015YTD

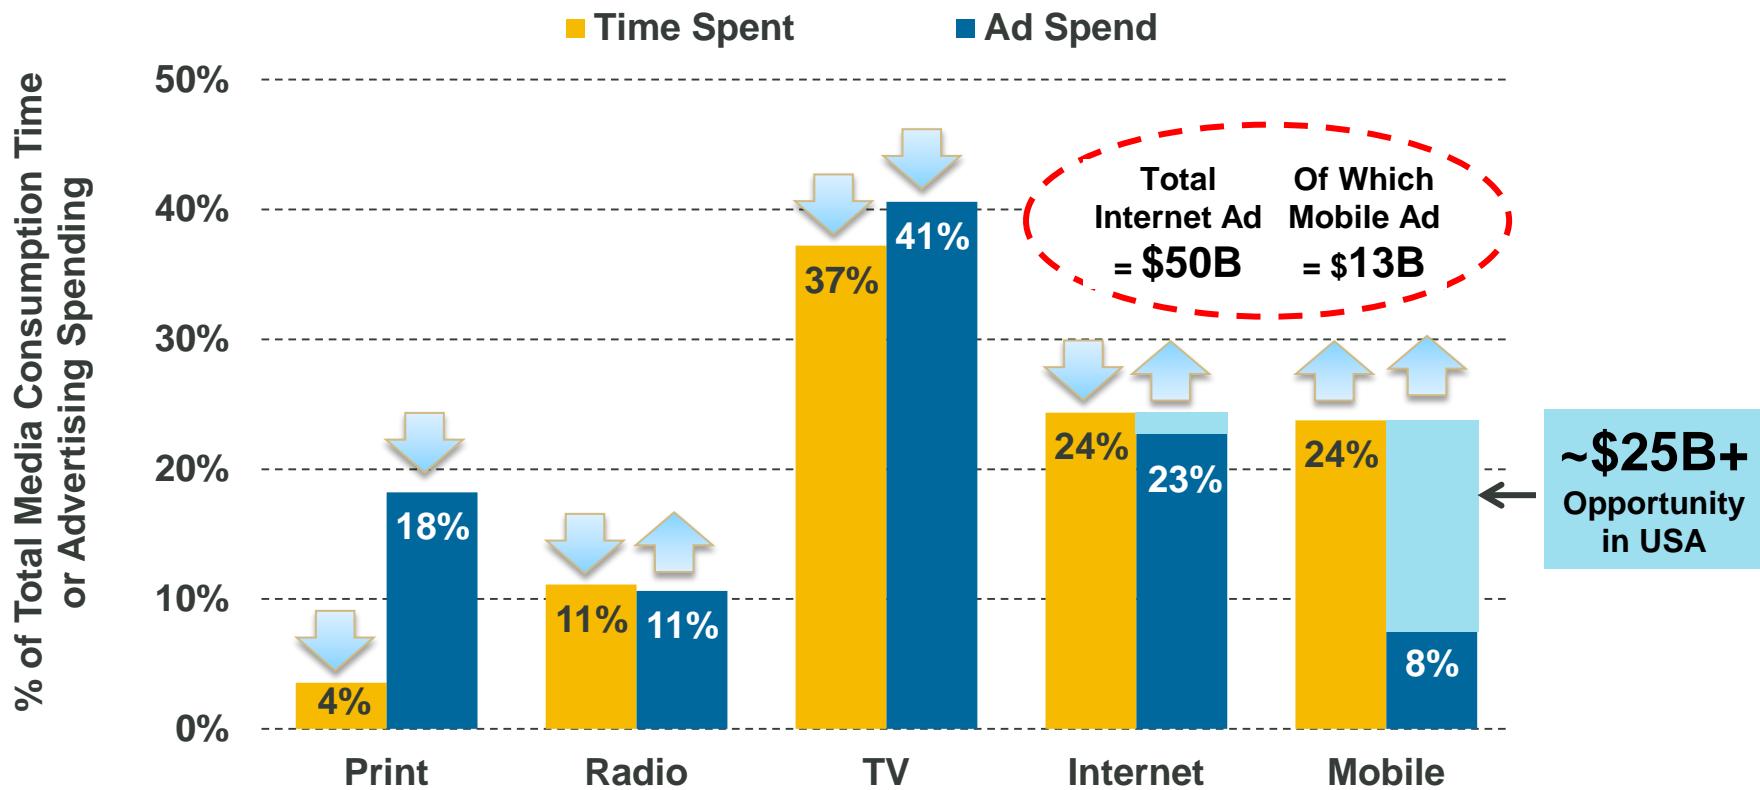

Advertising & Monetization =

*Mobile Remains Compelling...
Growth Rates for Leaders
Still High But Slowing*

Remain Optimistic About Mobile Ad Spend Growth... Print Remains Way Over-Indexed Relative to Time Spent

% of Time Spent in Media vs. % of Advertising Spending, USA, 2014

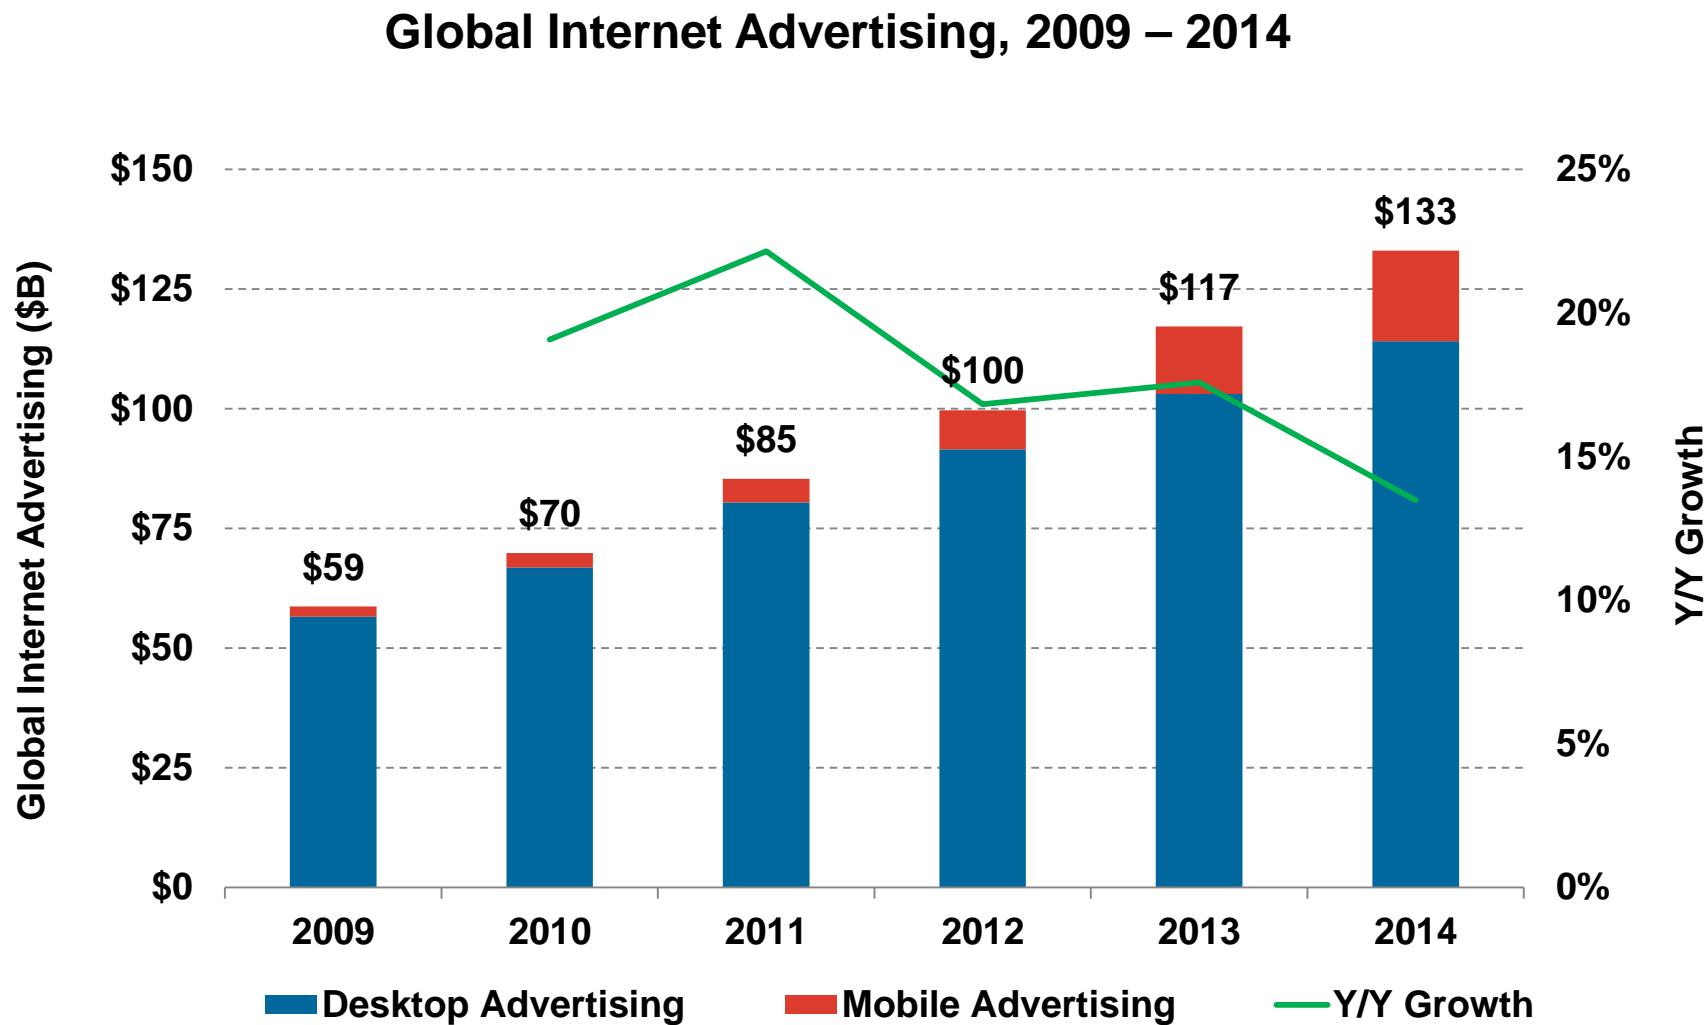

ARPU (+ MAU) Growth Strong But Slowing for Internet Leaders

Advertising ARPU, Annualized (\$), MAUs

Ad ARPU Annualized (\$)	Q1:13	Q2:13	Q3:13	Q4:13	Q1:14	Q2:14	Q3:14	Q4:14	Q1:15
Facebook (\$)	\$4.60	\$5.65	\$6.14	\$7.76	\$7.24	\$8.26	\$8.87	\$10.47	\$9.36
Y/Y Growth	15%	32%	39%	51%	57%	46%	44%	35%	29%
MAU (MM)	1,110	1,155	1,189	1,228	1,276	1,317	1,350	1,393	1,441
Y/Y Growth	23%	21%	18%	16%	15%	14%	14%	13%	13%

Tweet from Aaron Levie...

 Aaron Levie ✅
@levie

Enterprise software used to be about making existing work more efficient. Now, the opportunity for software is to transform the work itself.

RETWEETS 252	FAVORITES 214	
------------------------	-------------------------	--

9:42 PM - 9 Apr 2015

*While Consumer Internet Entrepreneurs
Often Pursue
Personal Passion...*

*‘Enterprise’ Internet Entrepreneurs
Often Pursue
Prior Company Pain Points*

Business Communications... Slack – Stewart Butterfield

THEN
Email / Semi-Inflexible
Messaging Tools

NOW
Slack

Can reduce internal email traffic materially

Offline Payments...

Square – Jack Dorsey / Jim McKelvey

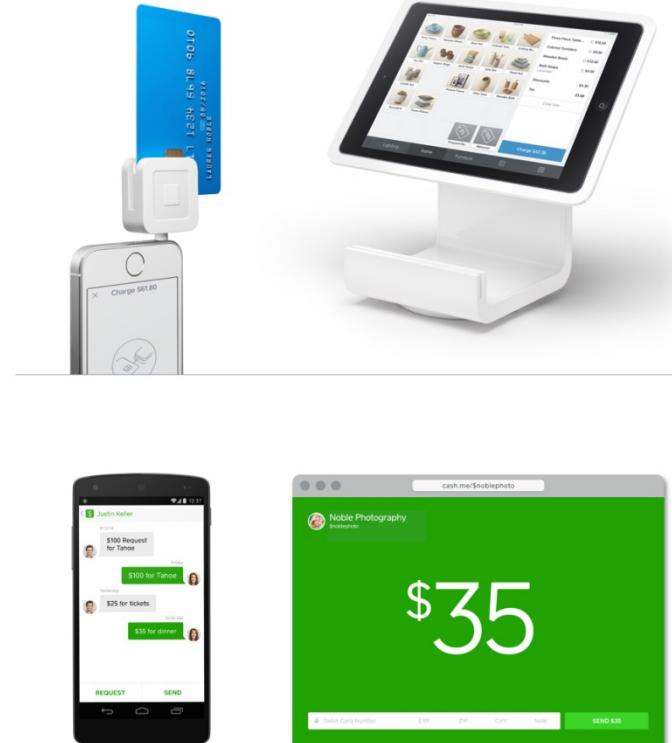

THEN

Difficult to Set Up /
Process Offline Payments

NOW

Square

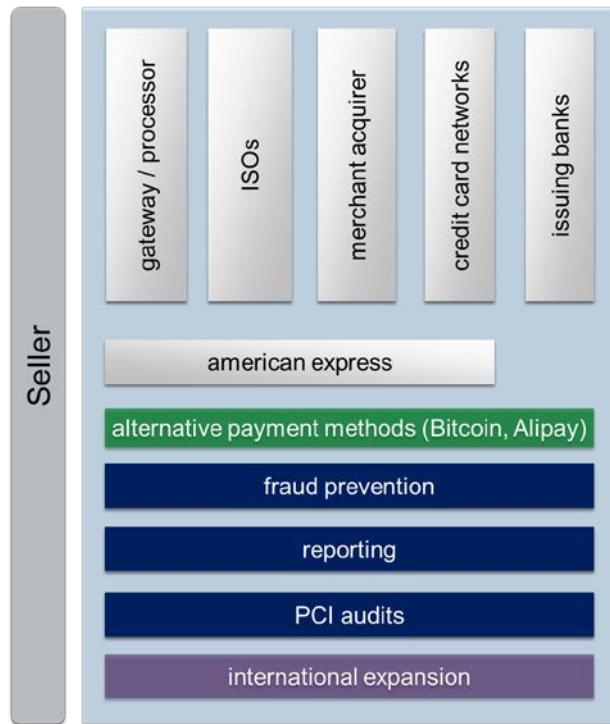

Allows merchants to accept credit card payments via their existing smartphone or tablet & run a sophisticated point of sale system

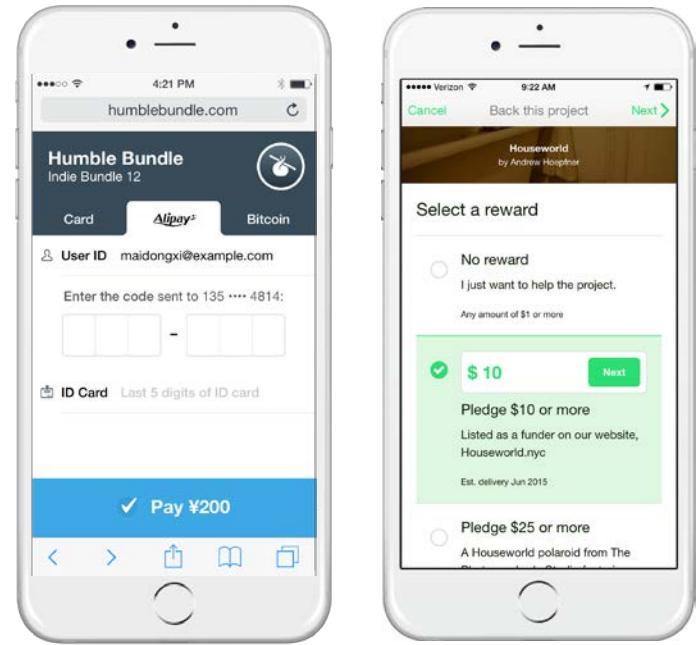

Online Payments...

Stripe – Patrick Collison / John Collison

THEN
Difficult to Set Up /
Process Online Payments

NOW
Stripe

**Stripe
Alipay flow**

**Kickstarter
payment flow**

Can dramatically reduce payment integration time for developers and allow them to take advantage of modern APIs, compared with time required to deploy traditional merchant account

Business Analytics... Domo – Josh James

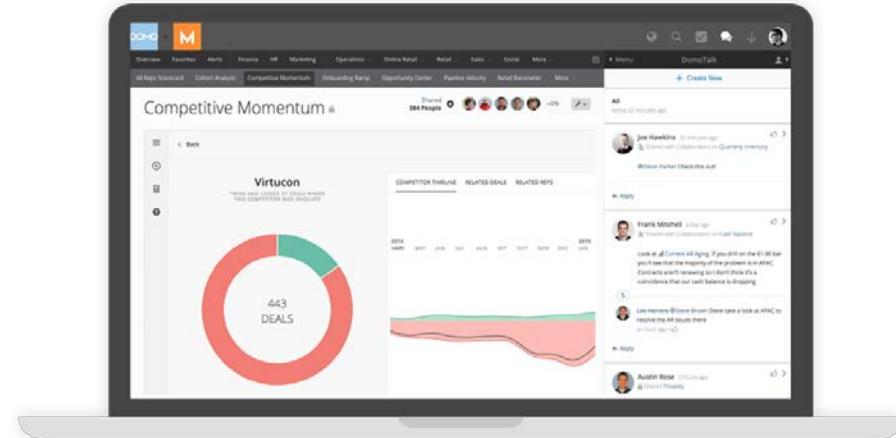

THEN

Data Overload Without
Easy Access for Execs

NOW

Domo

Improved access to real-time data can help users save time
& improve decision making

Document Signing / Transaction Management...

DocuSign – Tom Gonser

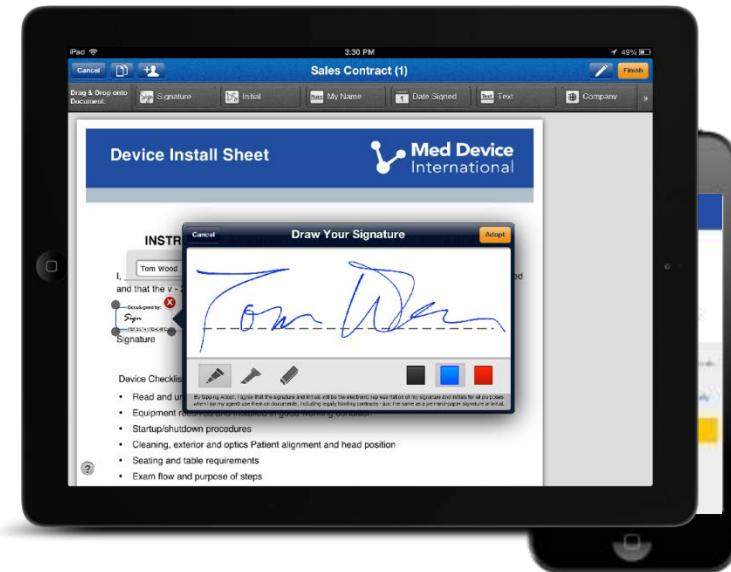

THEN

Paper-Based Signatures

NOW

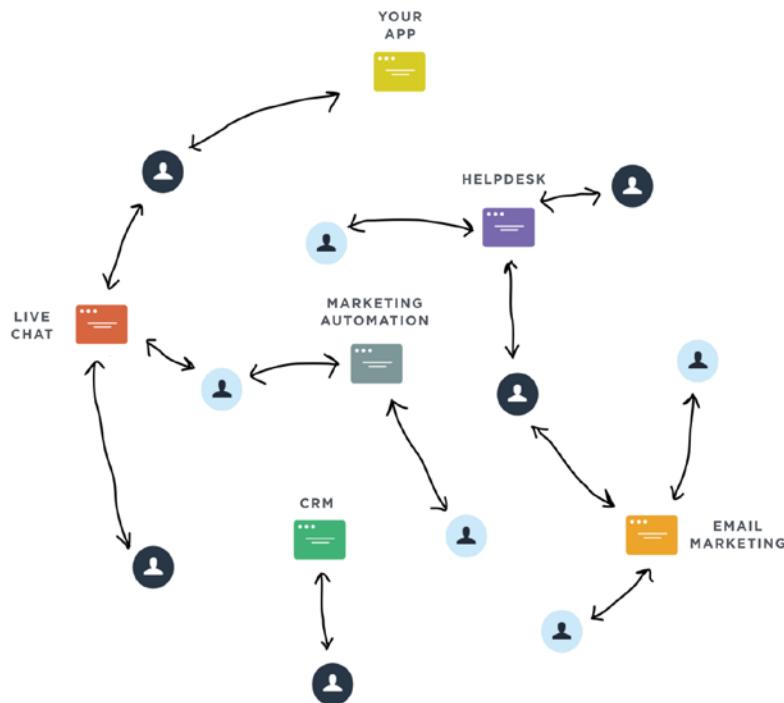

DocuSign

Can reduce transaction costs & improve transaction times

Customer Communication... Intercom – Eoghan McCabe

THEN Disconnected Point Solutions

NOW Intercom

In-app messages can be more engaging (based on reply rates)
than traditional email marketing products

Customer Success... Gainsight – Nick Mehta

THEN

Transactional Sales
Process with High Churn

NOW

Gainsight

Typically improves net revenue retention

Customer Service... Directly – Antony Brydon

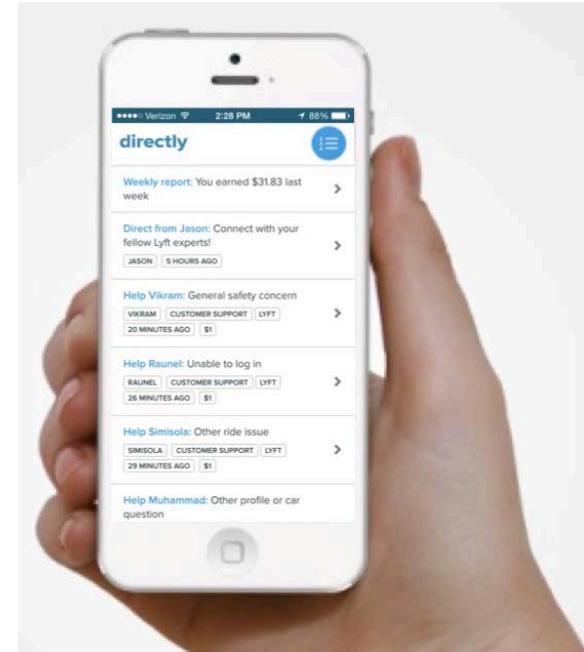

THEN

In-House Support Center

NOW

Directly

Can reduce customer response times & improve customer satisfaction

Human Resources... Zenefits – Parker Conrad

THEN
Paper Files &
Insurance Brokers

NOW
Zenefits

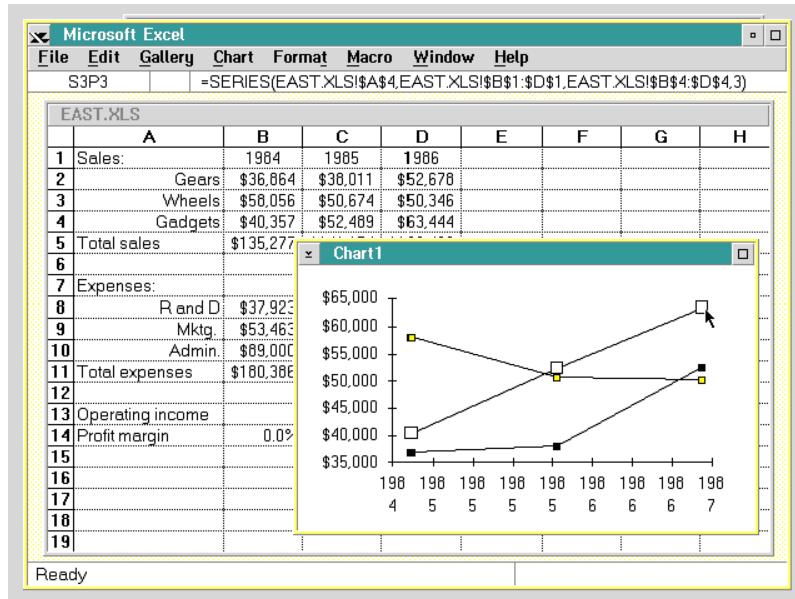

Manages \$700MM+ in annual benefits premiums across 10K customers in 48 states
vs. traditional brokers which typically work within a single state

Enterprise Planning & Performance Optimization...

Anaplan – Frederic Laluyaux

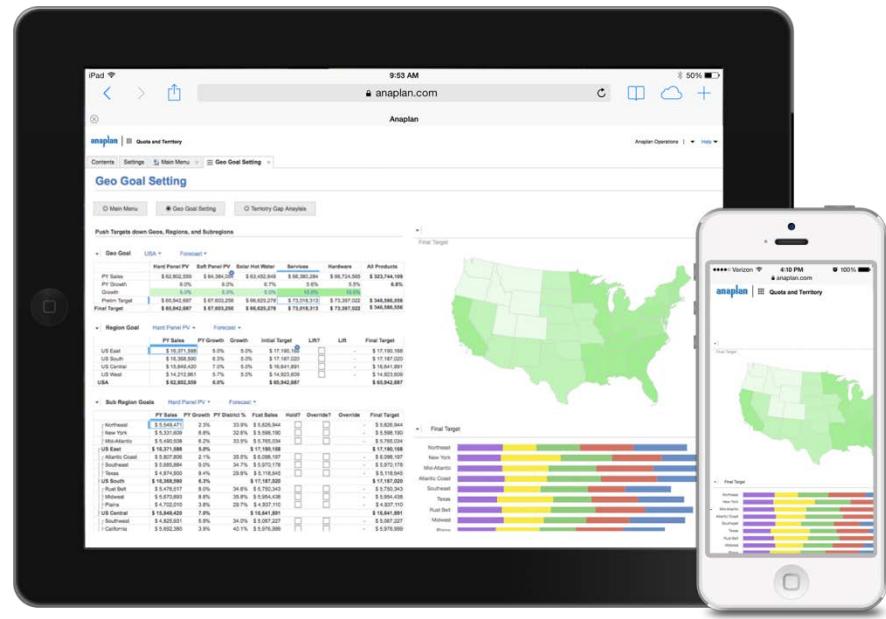

THEN

Microsoft Excel

NOW

Anaplan

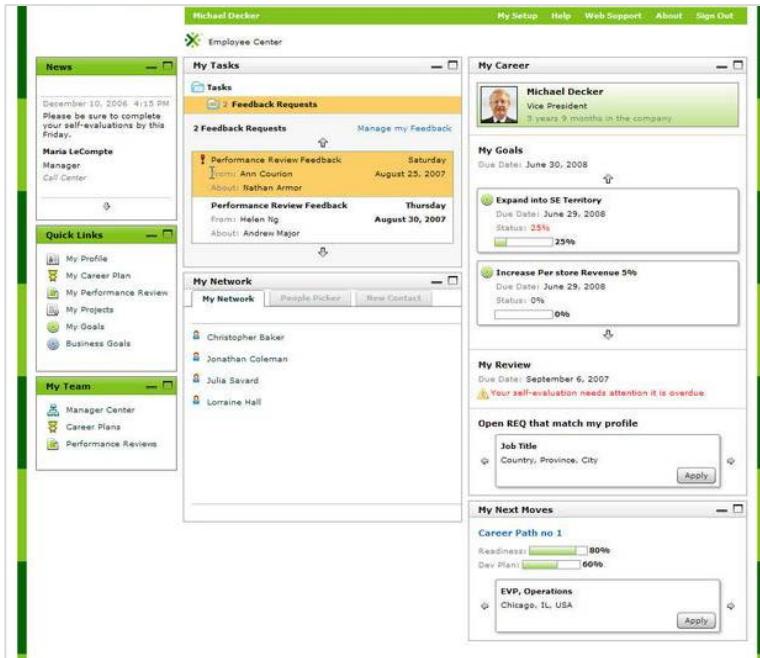

Can improve ROI for customers that have replaced legacy planning solutions & spreadsheet-based processes

Recruiting... Greenhouse – Daniel Chait

THEN

Reactive / Complex...
Only Used by Recruiters

NOW

Greenhouse

John Smith

Account Manager at Fun, Inc.
Write a headline about John...

Source
Applied through your website's jobs page

Can improve time-to-hire & decrease overall hiring costs

Background Checks...

Checkr – Daniel Yanisse

THEN
Manual / Time Consuming Background Screenings

NOW
Checkr

The computer screen displays the Checkr dashboard with the following details:

- Search bar: Q Search
- Status filters: All (radio button selected), Consider, Pending, Clear, Dispute, Canceled.
- Adjudication filters: All (radio button selected), Pre AA, Post AA.
- Tags: Select Some Tags.
- From: [empty field]
- To: [empty field]
- Table of results:

Name	Geos	Tags	Date
Dustin Mosey			Feb 27
Malisa Dolezal			Feb 27
Lesanne Toenjes			Feb 27
Shanie Morahan			Feb 27
Tia Strain			Feb 27

The mobile phone screen displays the 'Disclosure Regarding Background Investigation' page with the following text and checkbox:

regarding your criminal history, social security verification, motor vehicle records ("driving records"), verification of your education or employment history, or other background checks.

You have the right, under certain circumstances made within a reasonable time, to request whether a consumer report has run about you, and determine whether a consumer report, any investigative consumer report and to request a copy of your report. Please be advised that the right to request a copy of your consumer report or investigative consumer report is an employment history or verification. These searches will be conducted by Checkr, Inc. 550 15th Street Suite 27, San Francisco, CA 94103 144 352 3257 |

I acknowledge receipt of the Disclosure Regarding Background Investigation and certify that I have read and understand this document

Typically reduces background check turnaround times

Employee Knowledge / Training...

GuideSpark – Keith Kitani

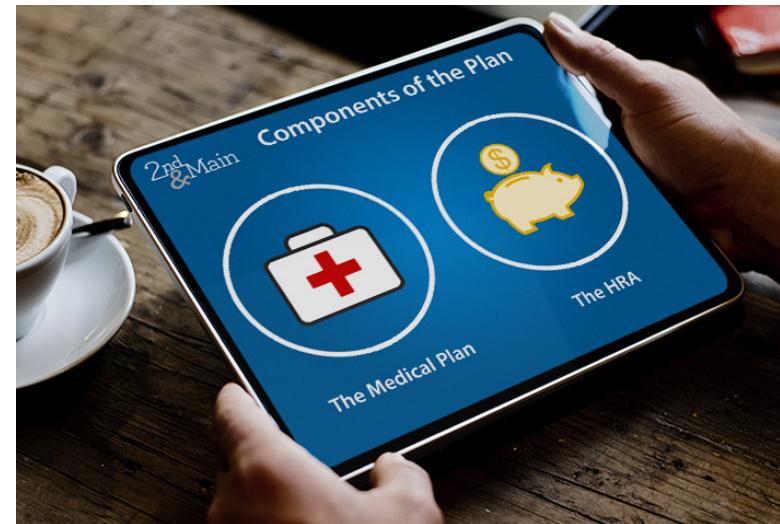

THEN

Static Hardcopy Manuals

NOW

GuideSpark

Can reduce Human Resource support time &
increase employee benefits plan participation

Visitor Management...

Envoy – Larry Gadea

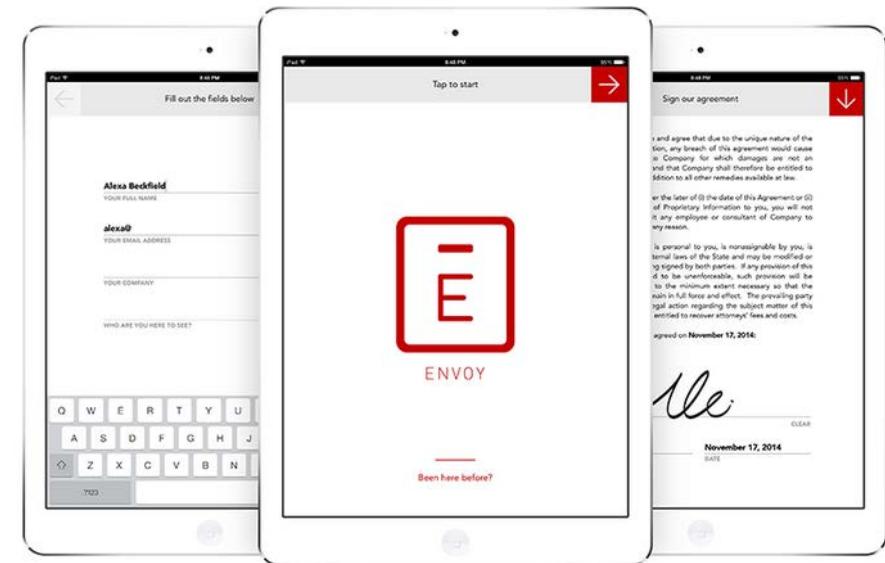

THEN

Sign-In Sheets

NOW

Envoy

Over 1MM visitors checked-in across 1,000 companies worldwide since May 2013

User-Generated Reviews / Feedback (Reputation) = +140% Y/Y @ 14MM New Reviews on Airbnb, Last 12 Months

This screenshot shows a desktop view of an Airbnb listing. At the top, there are tabs for 'Photos', 'About this listing', 'Reviews' (which is selected), 'The Host', and 'Location'. The 'Reviews' section shows '39 Reviews' with a perfect 5-star rating. Below this, there are sections for 'Summary', 'Accuracy', 'Communication', 'Cleanliness', 'Location', 'Check In', and 'Value', each accompanied by a 5-star rating icon. Testimonials include: Aaron from Palo Alto, CA in March 2015 ('This Yurt was amazing and super comfortable . It's an easy walk down the street to the lake. Dawn was a great host and was very generous with us. We'd definitely love to stay here again next time we go up to tahoe. Thanks!'); Son from Vancouver, WA in March 2015 ('Dawn and her family were really nice and helpful. They were flexible with us on arrival time (we arrived quite late at night). We absolutely love the yurt and enjoy our vacation in Lake Tahoe. This is our first time in Lake Tahoe. Dawn and her family were helpful--giving us tips on where to ride our bikes safely along the lake, kayak on the lake, and the local weather. The maps & books they lend us were great. Thank you.'); and a testimonial from New York, NY in March 2015 ('Staying in the yurt was great. Dawn was a gracious host and I would recommend it!').

Source: KPCB assessment for rankings, Thompson Coburn LLP for Sec 333 exemptions (<http://www.thompsoncoburn.com/news-and-information/publications/publication/15-04-17/section-333-at-200-days-where-are-we-now.aspx>), Airware for companies with public domain licenses.

Note: Per the FAA, Section 333 of the FAA Modernization and Reform Act of 2012 (FMRA) (PDF) grants the Secretary of Transportation the authority to determine whether an airworthiness certificate is required for a UAS to operate safely in the National Airspace System (NAS). This authority is being leveraged to grant case-by-case authorization for certain unmanned aircraft to perform commercial operations prior to the finalization of the Small UAS Rule, which will be the primary method for authorizing small UAS operations once it is complete.

Commercial Drone Market Future Potential = Bigger + More Constructive than Many Believe, Though With Risks

***Cyber Attacks =
Growing in Size /
Complexity / Risk***

Cyber Attacks = Growing Bigger / Faster...

- **Insider Misuse = Significant Cause of Breaches**

>20% of breaches come directly from insiders with malicious intent. In most breaches, attackers have foothold within internal networks & spread / steal data through privilege abuse / credential misuse.

- **Mobile Devices = Increasingly Used to Harvest Data**

Adware grew 136% to 410,000 apps between 2013 and first three quarters of 2014, giving attackers access to personal information such as contacts, which can subsequently be used to launch phishing attacks.

- **Mobile Device Management = Critical in Preventing Breaches**

22% of breaches reported by network security decision makers involve lost / stolen devices.

...Cyber Attacks = Growing Bigger / Faster

- **Human Focus = Critical in Preventing / Remediating Attacks**

Despite abundance of security products, breach response typically takes months. ~4 of 5 organizations don't update their breach response plans to account for changing threat landscape and corporate processes. With proper technology, threat intelligence & expertise, detection to response times has been reduced by >90%.

- **Security Skills = Biggest Gap in Enterprise Security Programs**

Despite large investments in security technologies, lack of skilled experts continues to result in breaches. At least 30% of organizations cite a 'problematic shortage' of each of following: 1) cloud computing and server virtualization security skills; 2) endpoint security skills; 3) network security skills; 4) data security skills; 5) security analytics / forensic skills.

- **Disclosures of Breaches = Coming from Outside Sources**

In 69% of breaches, victim did not detect attack on own – they were notified by third party (like the press, law enforcement, etc.). This is forcing victims to disclose breaches outside their preferred terms / timing.

AMERICA'S EVOLVING WORK ENVIRONMENT...

THIS IS NOT A COMPREHENSIVE OVERVIEW OF WORK IN AMERICA, BUT IS INTENDED TO PROVIDE A COLLECTION OF TRENDS OBSERVED IN THE MARKETPLACE IN AN EFFORT TO HELP ENCOURAGE DATA-DRIVEN DISCUSSIONS ABOUT SOME EVOLVING CHANGES RELATED TO WORK.

*Globalization / Structural Changes +
Mobile Connectivity +
Generational Shifts =*

Changing Ways Many Work

- 2) People Have Changed**
- 3) Connectivity Has Changed**
- 4) New Forms of Commerce Transforming How People Can Get Products + Services**
- 5) Changes in Connectivity + Commerce = Impact Consumption & Ways People Can Work...Still Early Innings**
- 6) Online Marketplace / Platforms = Regulatory Focus Evolving**
- 7) People + Systems + Regulations / Policies = Need to Evolve / Adapt Together to More Connected Society**

JOBS (+ WORK) HAVE EVOLVED

Jobs =

*Many Reshaped by
Globalization &
Structural Changes*

USA as % of Global GDP Declining = @ 16% vs. 36% Peak During WWII

World Trade Rising as % of GDP = @ 25%, Up ~3x Over Past ~50 Years

World Trade as % of World GDP, 1960 – 2014

'Goods Producing' Jobs Falling, Though Stable Recently =
@ 14% of Jobs vs. 44% Peak in 1943...Services Jobs @ 86% vs. 56%

Goods-Producing vs. Services Jobs as % of Total, USA, 1939 – 2014

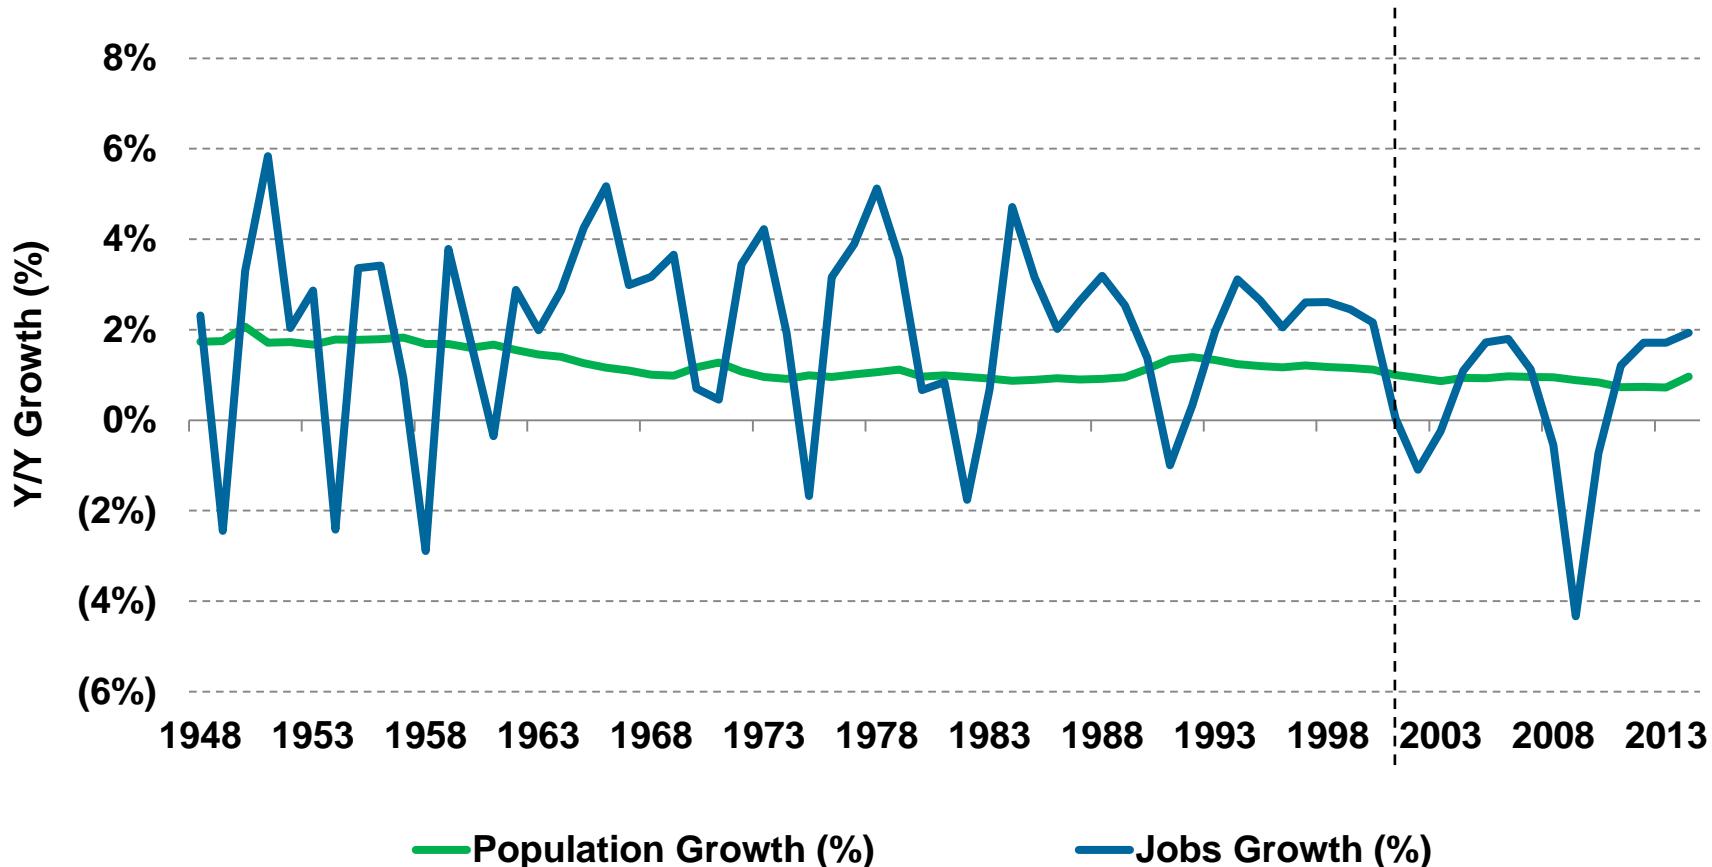

Since 2000 = Population Grew 2.4x Faster than Jobs...
1948 – 2000 = Jobs Grew 1.7x Faster than Population

1948 – 2000 Annual Averages = Jobs @ +2.1%...Population @ +1.3%

2000 – 2014 Annual Averages = Jobs @ +0.4%...Population @ +0.9%

Y/Y Population vs. Jobs Growth, USA, 1948 – 2014

High-Skilled / Knowledge-Based Jobs Grew 2x Since 1983... While Other Jobs Grew Just 1.3x

Non-Routine Cognitive Jobs = High-Skilled and Requires Flexibility, Creativity, Problem Solving

**Non-Routine Cognitive Jobs vs. All Other Jobs Growth,
USA, 1983 – 2015 (Indexed to Jan 1, 1983)**

Source: US Census Bureau, Federal Reserve Bank of St. Louis, 4/15. Based on methods from Jaimovich and Siu, 2012. Stephen Roach, Senior Fellow and Economist at Yale University, 2015.

Note: Non-routine cognitive jobs include jobs like computer and mathematical, architecture and engineering, education and training, and healthcare occupations.

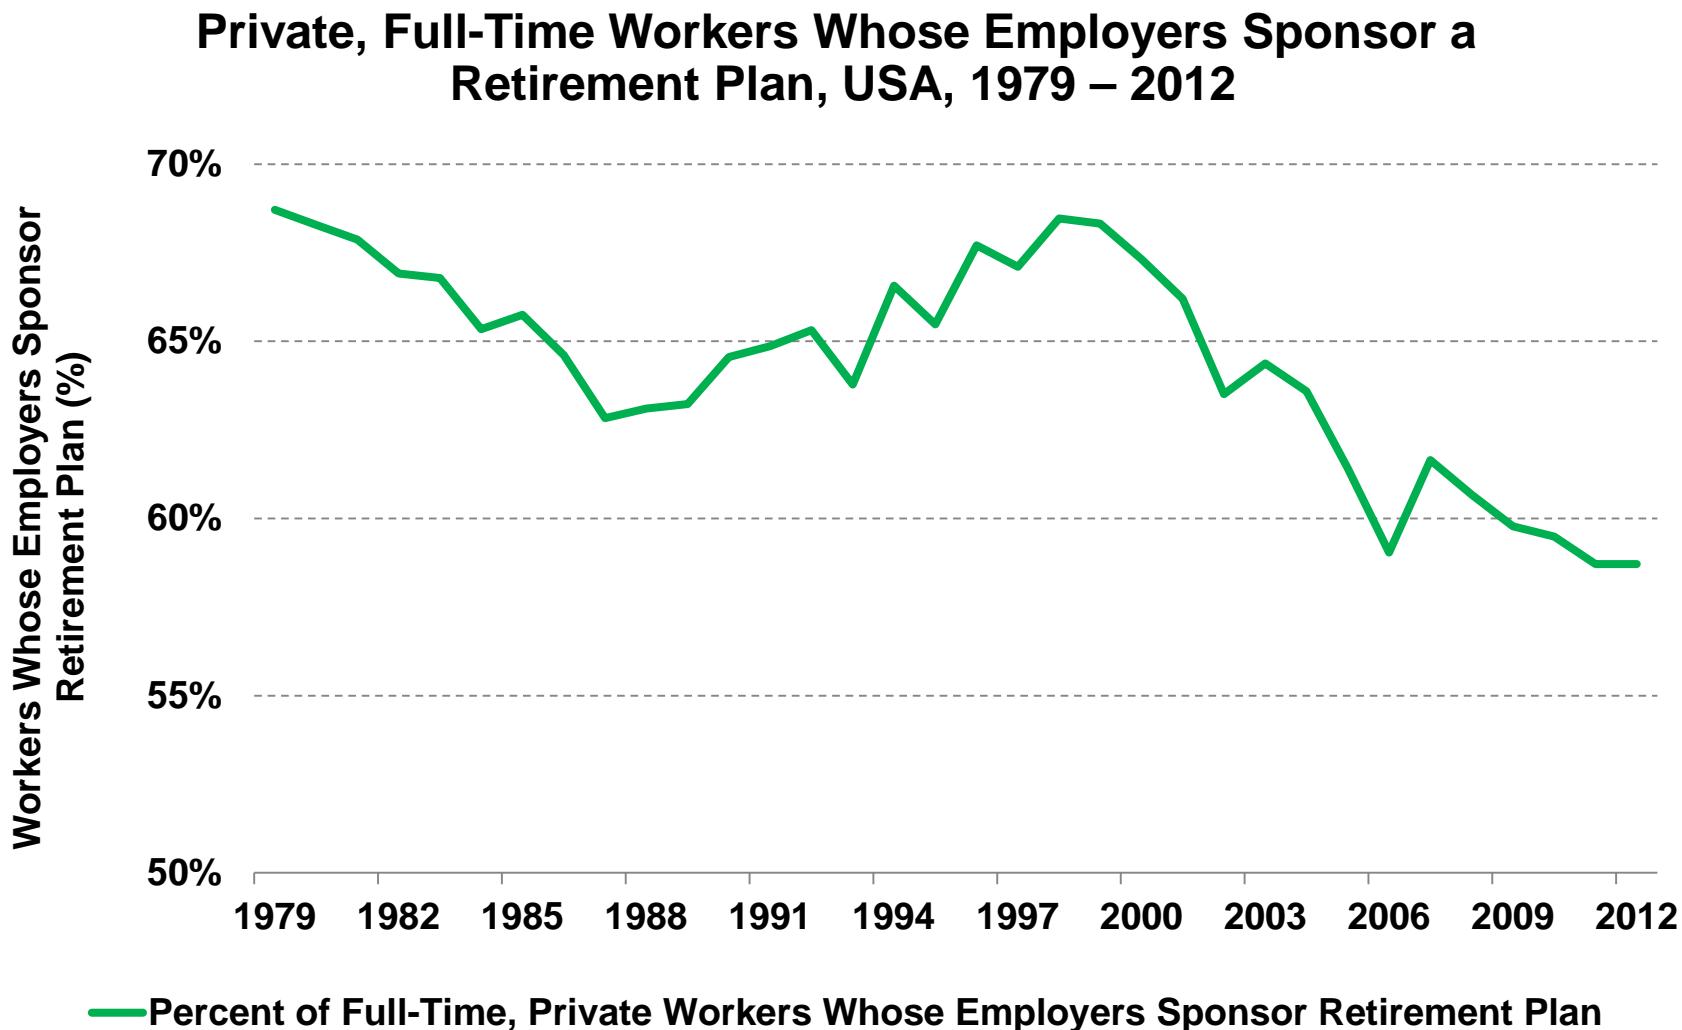

All other jobs (referred to as routine cognitive and manual occupations) include jobs like production, construction, administrative, and various other occupations.

Non-routine cognitive jobs require creativity, flexibility, problem solving, and are generally high-skilled. Non-routine cognitive jobs comprise ~55MM+ jobs today, or ~40% of the USA workforce.

Union Participation Declining = @ 10% of Workforce vs. 35% Peak in 1954

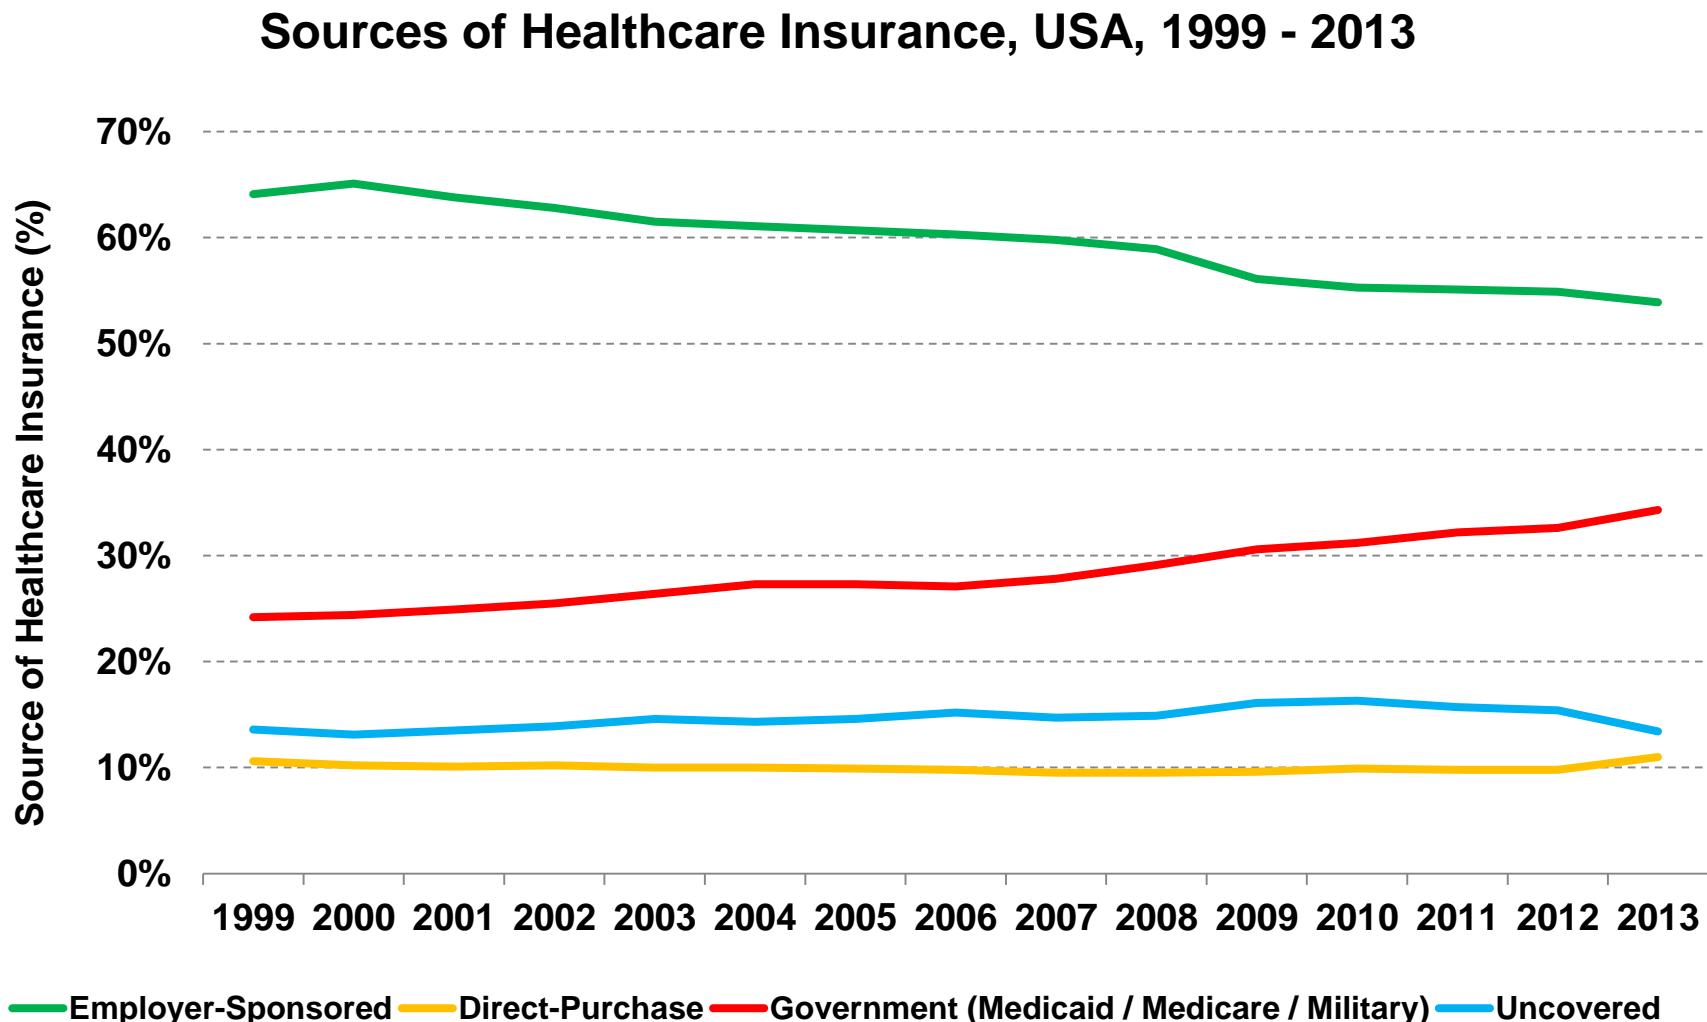

Employer Retirement Plan Sponsorship Falling = @ 59% in 2012 vs. 69% in 1979

Source: Center for Retirement Research at Boston College, 5/13.

Note: Population is restricted to private, civilian, nonfarm wage and salary earners. Full-time workers are those working 50 or more weeks a year and 35 or more hours a week. Data are limited to private-sector, full-time workers ages 25-64. Retirement plans include defined contribution plans, defined benefit plans, or both. Data are based on respondents who said the employer they work for has a pension or other type of retirement plan for any of its employees.

Source of Healthcare Insurance Shifting Away from Employers = @ 54% vs. 64% in 1999

— Employer-Sponsored — Direct-Purchase — Government (Medicaid / Medicare / Military) — Uncovered

Government Benefit Recipients Rising = @ 50% of Population vs. 30% in 1983

Source: U.S. Census Bureau, Survey of Income and Program Participation.

Government benefits include Social Insurance Programs such as Department of Veterans' Affairs Compensation, Pensions, Educational Assistance, Medicare, Social Security, Unemployment Compensation Insurance, Workers' Compensation, Railroad Retirement; and Social Welfare Programs, such as Food Stamps, Free/Reduced-Price Meals, Housing Assistance, Federal and State Supplemental Security Income, Medicaid, etc.

PEOPLE HAVE CHANGED

Urban Dwellers Have Risen =
@ 81% of Population vs. 70% Fifty Years Ago, 46% a Century Ago

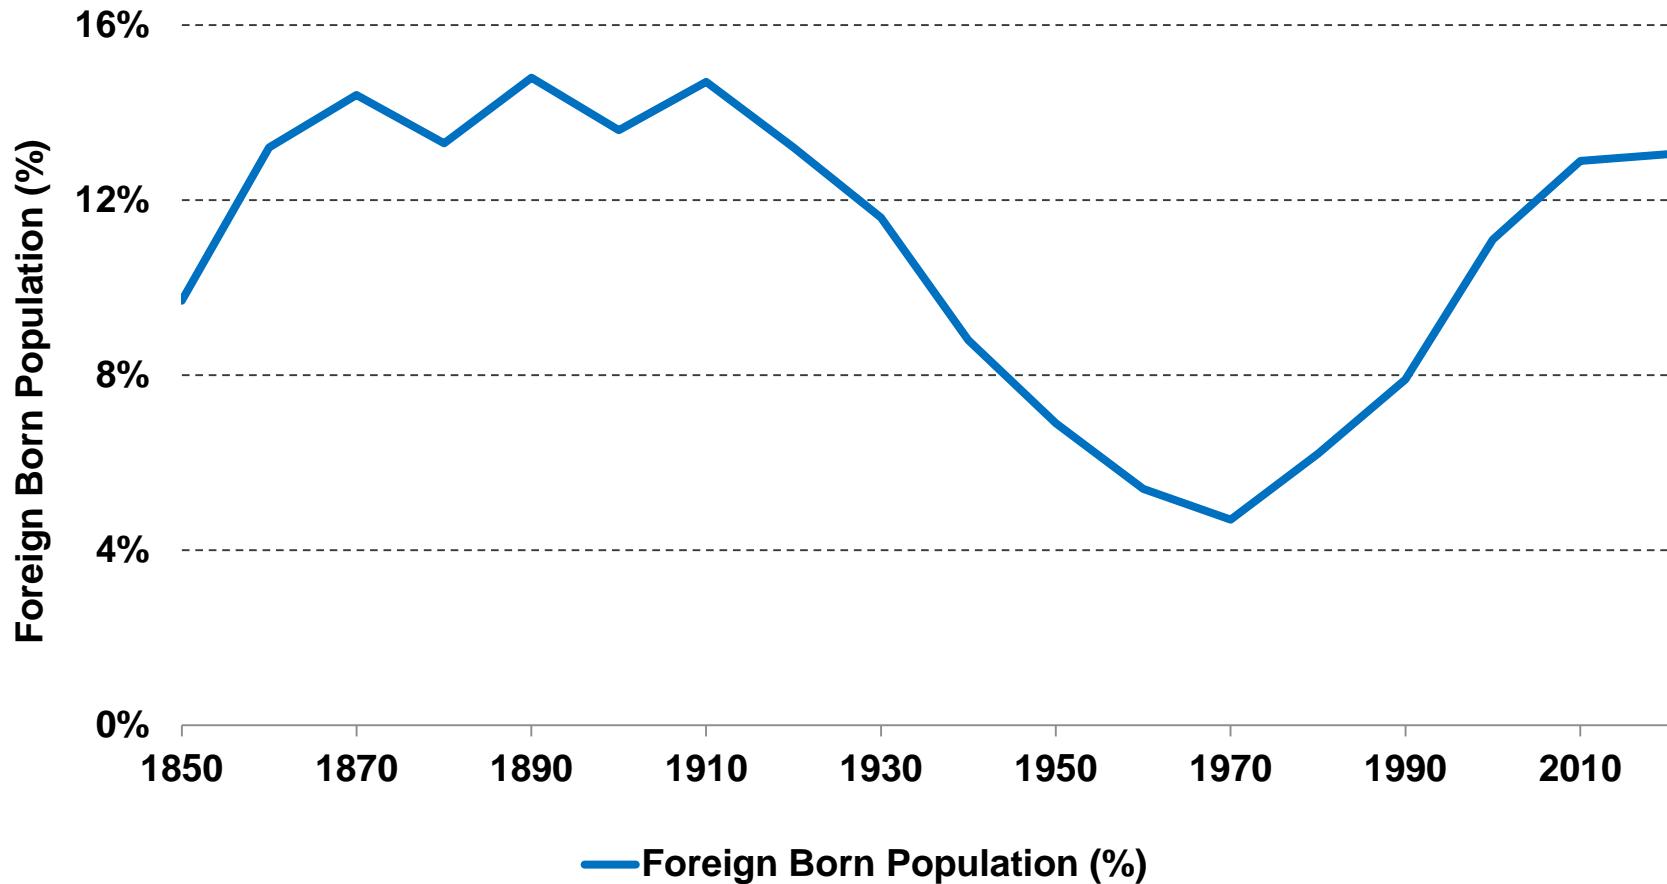

Source: The World Bank, United Nations World Urbanization Prospects, US Census Bureau.

Note: Urban population refers to people living in urban areas. Urban areas are densely developed territories that contain at least 2,500 people, as defined by the Bureau of Labor Statistics. It is calculated using World Bank population estimates and urban ratios from the United Nations World Urbanization Prospects.

Interest in urbanization is owing to the fact that many new, online, on-demand platforms / marketplaces typically focus on serving urban populations.

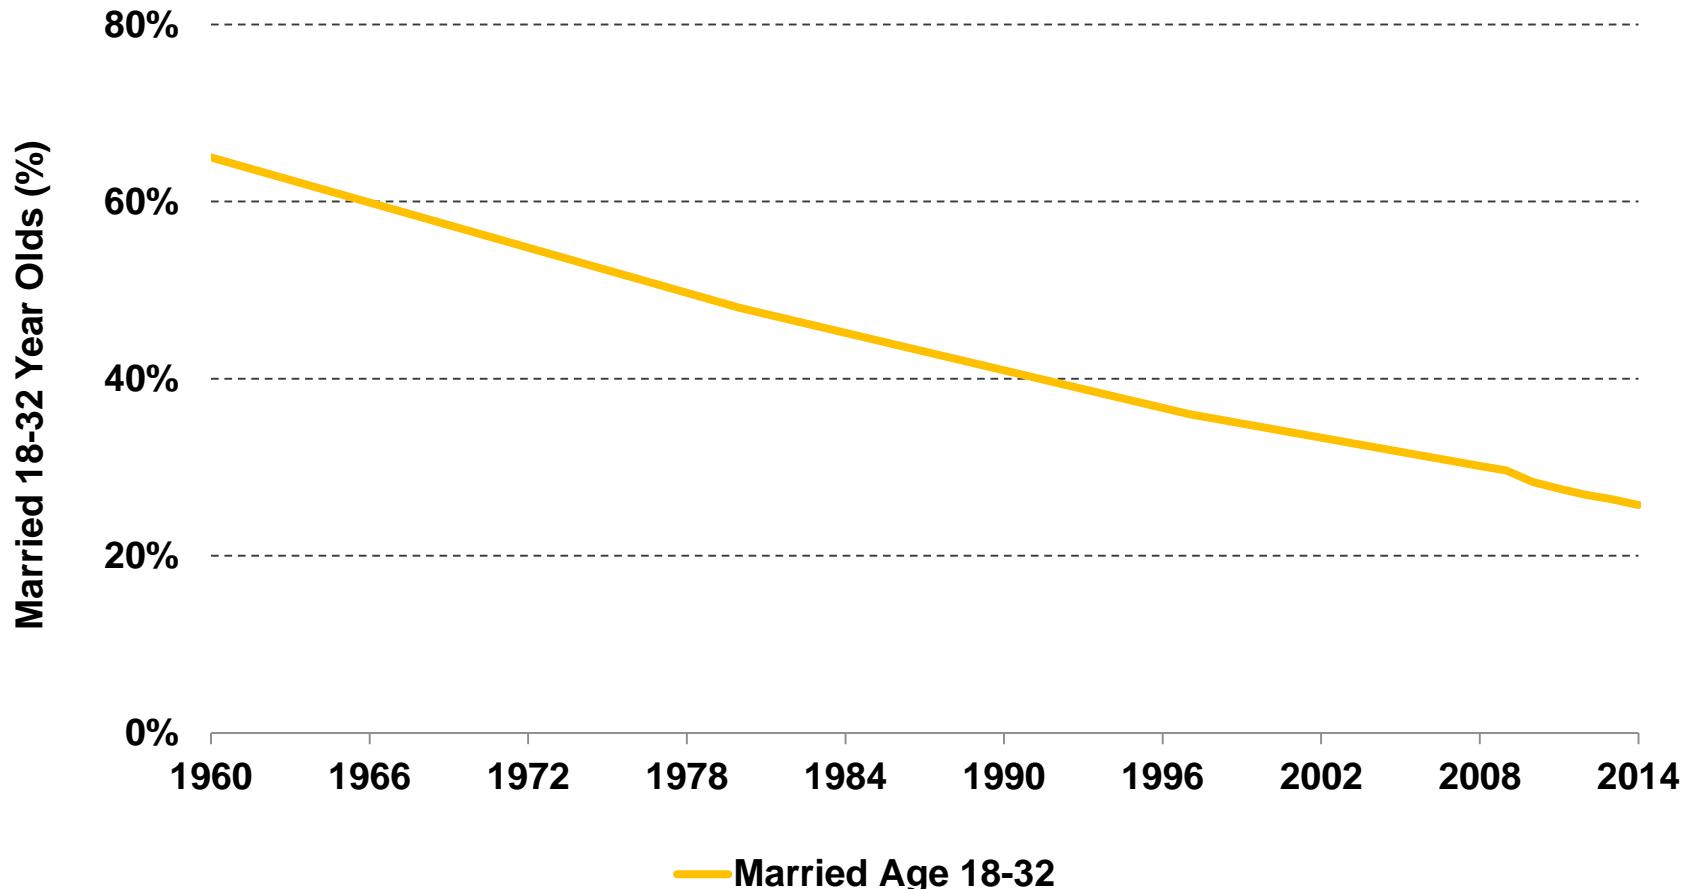

Immigrant Population Rising =
@ 13% of Total vs. <5% in 1970

Percent of Population that is Foreign-Born, USA, 1850 – 2013

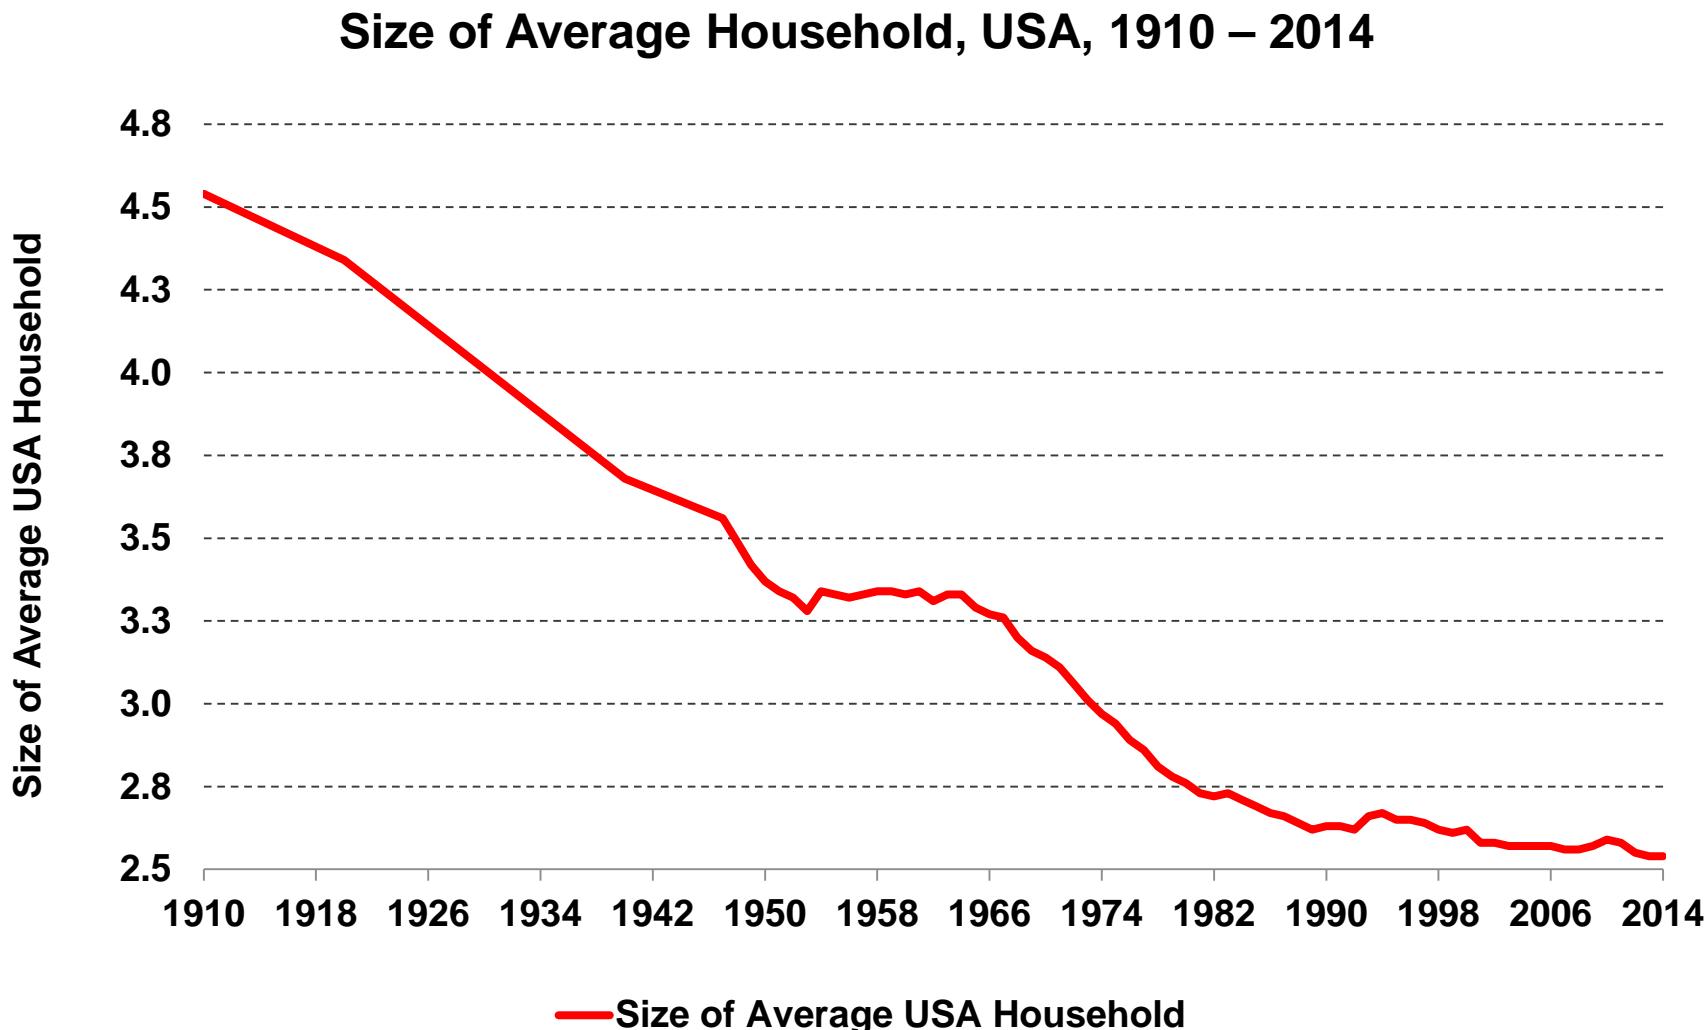

18-32 Year Olds Marriage Rates Declining =
@ 26% vs. 65% Fifty Years Ago

Percent of Married 18-32 Year Old Population, USA, 1960 – 2014

Household Sizes Declining = @ 2.5 People vs. 3+ Fifty Years Ago, 4+ a Century Ago

Millennials (Age 15-35) = Largest Generation in Workforce This Year

Civilian Labor Force by Generation, USA, 2000 – 2015

Source: Bureau of Labor Statistics, Current Population Survey, 4/15. BLS begins counting Civilian Labor Force at age 16.
Millennials defined as those born between 1980 and 2000. In 2015, they are ages 15-35.

GenX defined as those born between 1965 and 1979. In 2015, they are ages 36-50.

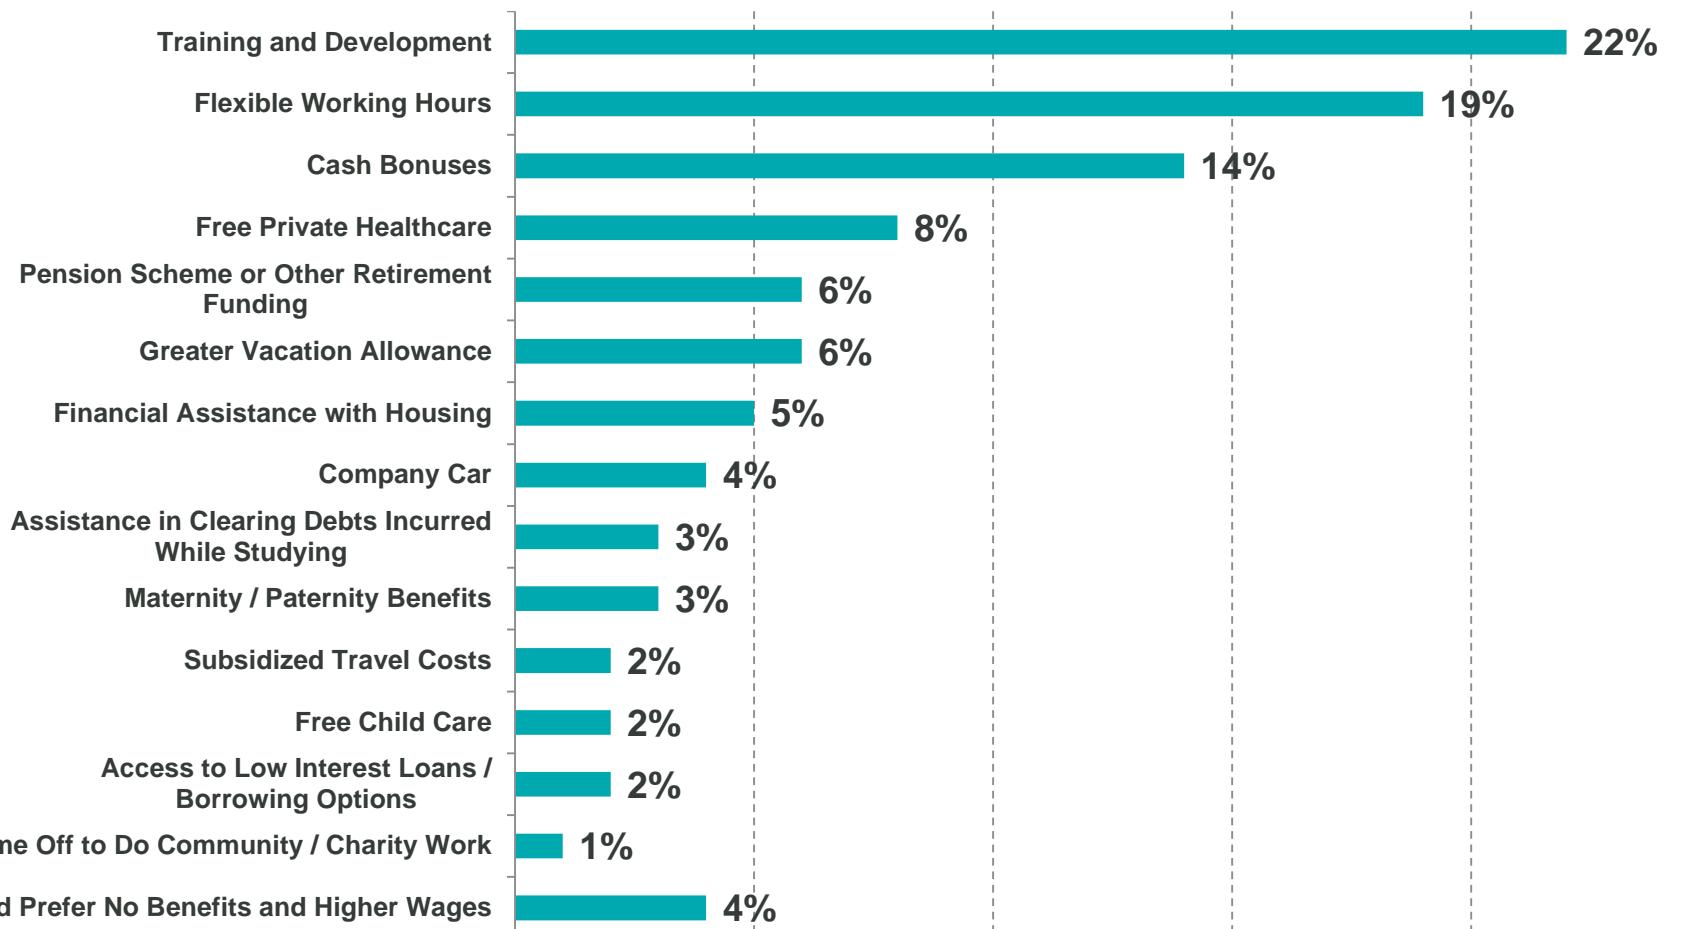

Boomers defined as those born between 1946-1964. In 2015, they are ages 51-70.

Note that there may be different opinions on which years each generation begins and ends. Sums do not add up to 100% owing to exclusion of Silent Generation.

Millennials' Most Valued Work Benefits = 1) Training & Development 2) Flexible Hours 3) Cash Bonuses

Which Three Benefits Would You Most Value From an Employer?

% Ranking Each 1st Place, Global

Millennials Expect Flexibility & Like Technology @ Work

Millennials = Expect Flexible Work Hours

- **Many = expect to be mobile** & work from home / office / cafes at will.
- ~20% = **identify as ‘night owls’** (often work outside normal business hours).
- 38% = **freelancing** vs. 32% among those over 35 years old.
- 32% = **believe they will be working ‘mainly flexible hours’** in future.

Millennials = Tech Savvy

- 34% = **prefer to collaborate online** at work as opposed to in-person or via phone (vs. 19% for older generations).
- 45% = **use personal smartphones for work purposes** (vs. 18% for older generations).
- 41% = **likely to download applications to use for work purposes in next 12 months & use their own money to pay for them** (vs. 24% for older generations).

Freelancers = Significant & Growing Portion of Workers @ 53MM People, 34% of USA Workforce

Freelancer Categories*

Independent Contractors	<ul style="list-style-type: none">• 21MM People• <i>40% of Freelancers</i>	<ul style="list-style-type: none">• Don't have employer...do freelance, temporary, or supplemental work on a project-by-project basis
Moonlighters	<ul style="list-style-type: none">• 14MM People• <i>27% of Freelancers</i>	<ul style="list-style-type: none">• Professionals with a primary, traditional job who also moonlight doing freelance work
Diversified Workers	<ul style="list-style-type: none">• 9MM People• <i>18% of Freelancers</i>	<ul style="list-style-type: none">• Multiple sources of income; mix of traditional and freelance work
Temporary Workers	<ul style="list-style-type: none">• 6MM People• <i>10% of Freelancers</i>	<ul style="list-style-type: none">• Single employer, client, job, or contract project where employment is temporary
Business Owners who Consider Themselves Freelancers	<ul style="list-style-type: none">• 3MM People• <i>5% of Freelancers</i>	<ul style="list-style-type: none">• Business owners with 1-5 employees

Source: "Freelancing in America," Survey of 5,000 Working Americans commissioned by Freelancer's Union and Upwork (formerly Elance-oDesk), 9/14, USA.

*Freelancer defined as person / business engaged in supplemental, temporary, or project / contract-based work in the past 12 months.

Moonlighters responded that they have one employer and are also doing freelance work on the side to earn additional money. Diversified workers responded that they have multiple sources of income from a mix of traditional employment and freelance work.

Freelancers Use Internet to Get / Do Business

Freelancers* Say...

69% = Social networking has ‘drastically changed dynamics of networking’

65% = Internet makes it easier to find work

42% = Have done online freelance project

31% = Can find a gig online in <24 hours

Internet Enabling Commerce in Increasingly Efficient Ways

eBay SMBs = 95% engage in export vs. <5% of USA businesses

Setting up export businesses historically required significant investment.

Car + smartphone + quick onboarding to be UberX driver-partner vs. materially more to purchase medallion (or equivalent) to be a Taxi driver.

Etsy sellers = 35% started business without much capital investment, compared to 21% for small business owners.

SoundCloud Creators can use mobile devices to record / distribute audio content within minutes.

Only a smartphone needed to set up a listing and become an Airbnb host. Hosts can get set up in minutes.

Ability for businesses to access talent quickly – time to hire averages 3 days on Upwork vs. longer time for traditional hiring.

Thumbtack

Thumbtack professionals pay \$3-15 per introduction to services leads they are interested in vs. buying ads in directories monthly or yearly.

Stripe Connect powers most marketplace businesses and enables coordination of transactions between buyers and sellers.

Growth in Online Platforms / Marketplaces =
Creates Benefits & Challenges

Online Platforms / Marketplaces = Benefits & Challenges for Consumers

Benefits

Choice / Access – product depth + breadth...availability of goods / services / experiences previously hard to find / reach

Time Savings – can offset incremental costs, if any

Transparency – ability to research / set expectations / track process

Personalized – can get items / services on own schedule

Online Reputation & Trust Systems Often in Place – ability to read & write reviews / ratings for merchants & service providers

Challenges

Time / Cost Tradeoff – Products with rapid delivery may be more expensive

Quality – unable to test products / services...reliant on feedback from peers / reviews

Trust – new marketplaces must prove trustworthiness to consumers

Time / Convenience Tradeoff – Convenience of delivery to home / work may mean delaying gratification of getting product immediately

Online Platforms / Marketplaces = Benefits & Challenges for Workers

Benefits

Financial – ability to earn supplemental / primary income

Flexibility – choose own schedule / task, location / income goals-targets

Skill Set Match – can often effectively match skills with needed services

Feedback / Communication – often real-time / direct

Data – customer location + data can allow workers to provide more informed / efficient service

Customer Base – marketplaces can aggregate demand that may be fragmented / far-reaching (global)

Growth – rising sector demand for services should boost opportunities / competition for workers

Challenges

Incumbent Displacement – creates change / uncertainty

Financial – lack of predictable income possible

Uncertainty – lack of clarity related to demand / work / reporting possible

Benefits Clarity – insurance / vacation / sick leave / pension...

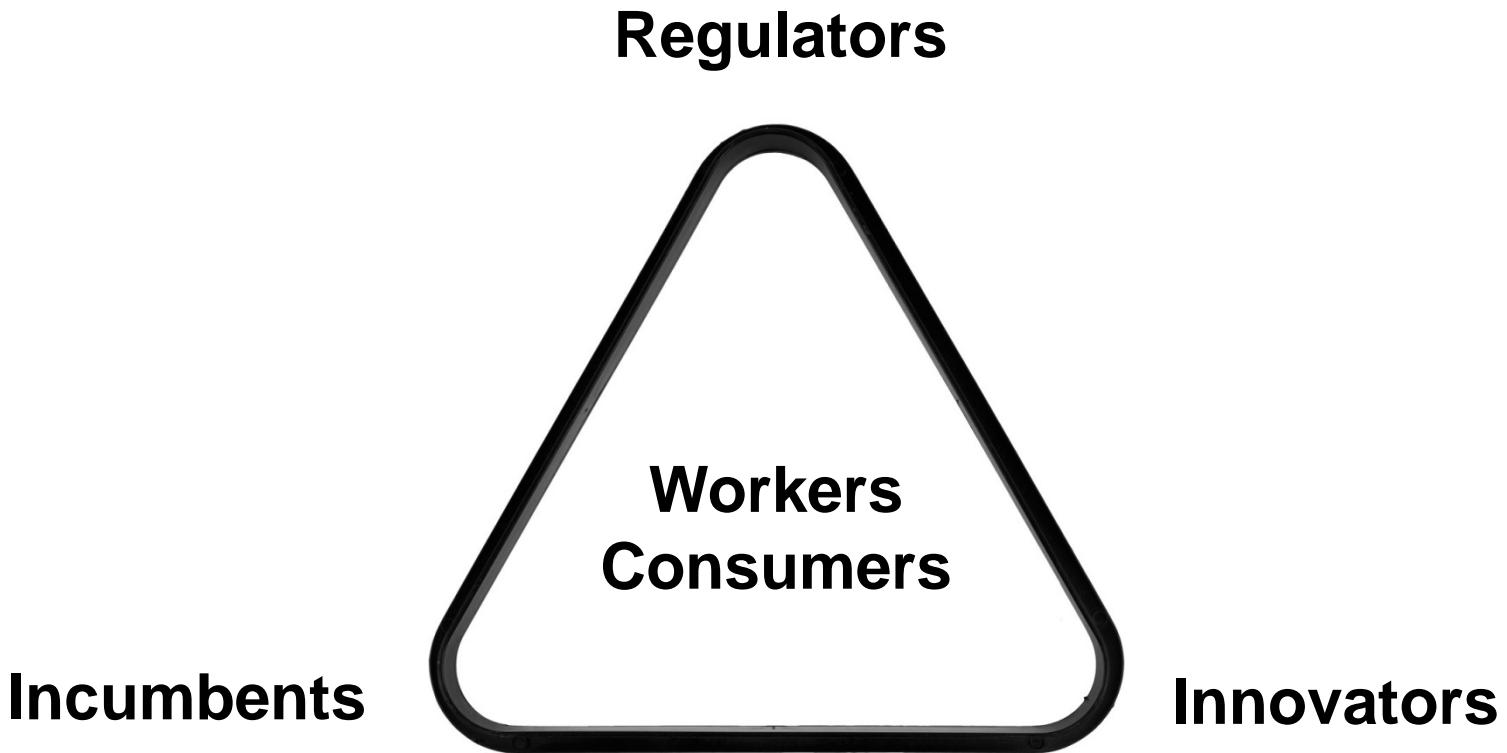

Asset Use – potential job requirement to use personal items (cars / phones...)

Training / Development – potentially limited training / development / supervision

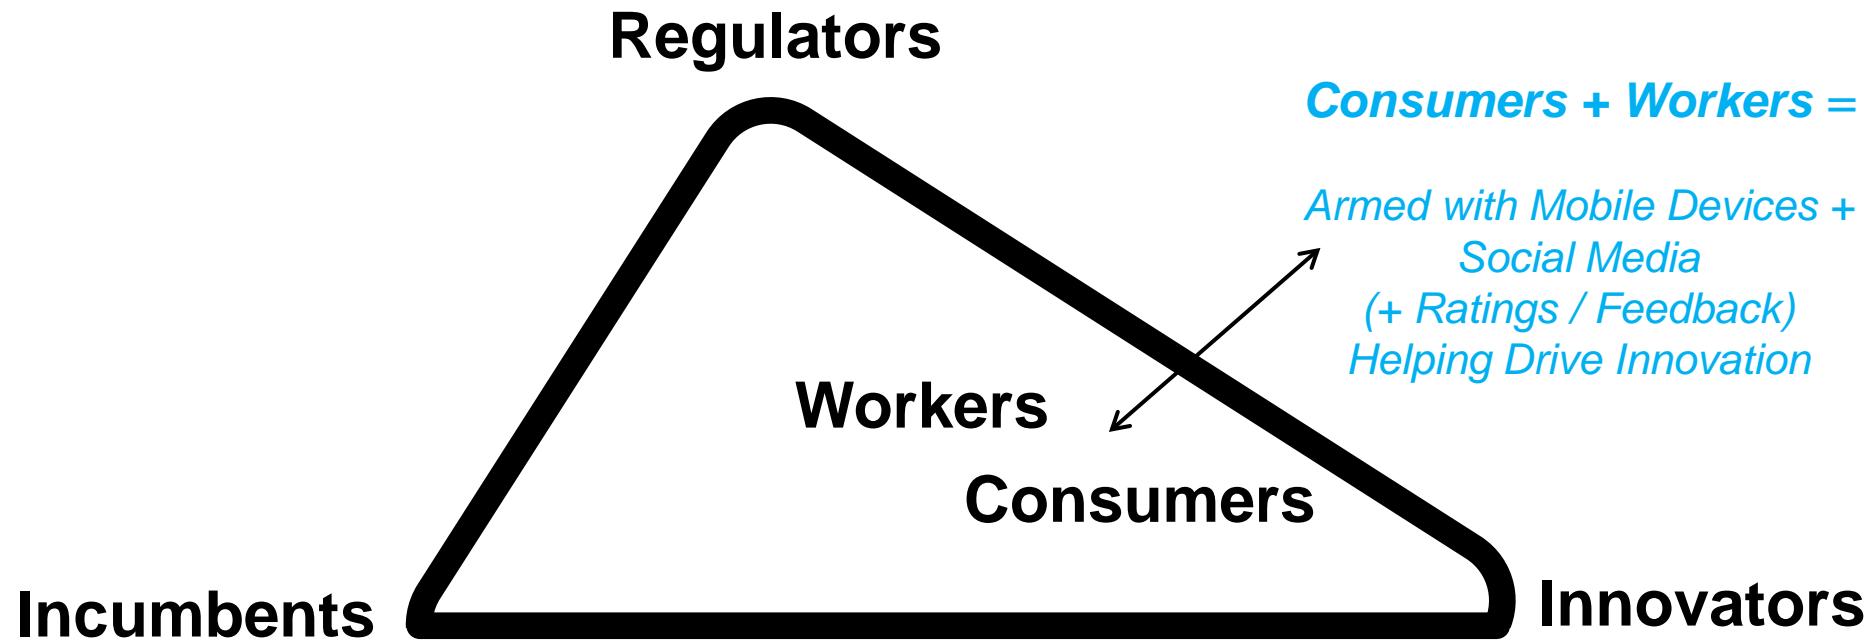

Workplace Culture – people often dispersed

ONLINE MARKETPLACE / PLATFORMS = REGULATORY FOCUS EVOLVING

Traditional Challenge / Opportunity =
Incumbents ⇔ Regulators ⇔ Innovators...

...Evolving Challenge / Opportunity =
Incumbents \leftrightarrow Regulators \leftrightarrow Innovators

Innovative Online Platform / Marketplace Business Models = Capturing Attention of Incumbents + Regulators + Policy Makers + Plaintiffs Lawyers

- **Airbnb Emerges Victorious as New York City Regulators Overturn Host's \$2,400 Fine**
– The Verge, 9/13
- **Artist Sued for 'Subletting' Loft on Airbnb**
– New York Post, 6/14

Uber, Lyft... = Facing Confusion in Regulatory Environment Related to Worker Classification System

*California law defines whether workers are employees or independent contractors, and there's a test, but **the test and classification system are woefully outdated...***

*...It seems to me, as a matter of common sense, that **Lyft drivers don't fall into the traditional understanding of [the two classifications]. They seem to fall into a third category....***

*The jury in this case will be handed a square peg and asked to choose between two round holes. **The test the California courts have developed over the 20th Century for classifying workers isn't very helpful in addressing this 21st Century problem...***

- Judge Vince Chhabria, U.S. District Judge Presiding Over Cotter vs. Lyft Inc., et al

*Note that Lyft was eventually denied motion for summary judgement & case will need to be decided by a jury.

Airbnb = Facing Confusion in Regulatory Environment Related to Myriad of Local Laws on Hotels / Short-Term Rentals

...this is amazing, but it's also complicated because there are laws that were written many decades ago – sometimes a century ago – that said,

'There are laws for people and there are laws for business.' What happens when a person becomes a business?

Suddenly these laws feel a little bit outdated. They're really 20th-century laws, and we're in a 21st-century economy.

- Brian Chesky, Co-founder and CEO of Airbnb, 11/14

StubHub = Faced Confusion in Regulatory Environment & Proved Marketplaces Can Be Regulators' Allies

Original Intent of Anti-Scalping Laws (passed in 1920s) = Protect Consumers...

...the law 'merely prohibits' scalpers and ticket brokers from charging excessive prices and thereby 'end[s] the extortion' of the public...

StubHub When Founded in 2000 = Faced Many Anti-Scalping Law Barriers...

>20 states prohibited some form of ticket resale...for example, Alabama / Massachusetts require licenses...in Indiana, one couldn't sell tickets to boxing matches...

StubHub in 2015 = Legal in Nearly All States & Has Helped Provide...

- ***Marketplace Liquidity*** = Can help prevent excessive pricing ('extortion of public')
- ***Trust & Safety / Transparency*** = Likes of ratings / feedback systems can help find / remove bad actors

With passage of time (& collaboration), StubHub has helped regulators do their jobs – effectively regulate what they had intended to regulate all along.

**PEOPLE + SYSTEMS + REGULATIONS /
POLICIES =
NEED TO EVOLVE / ADAPT TO MORE
CONNECTED SOCIETY**

High-Level Summary...

- **Job Market** – Has been more difficult & work has been harder to find for many
- **Benefits** – Traditional employer-provided benefits like health insurance & retirement plans falling...Recipients of government benefits rising
- **Millennials** – Have different expectations for work than previous generations, for now...Shaped, in part, by Great Recession
- **Connectivity** – Has created efficiencies & changed work for many
- **Work** – Alternative work arrangements (including freelancing) increasing...Competition for workers may rise with demand

...High-Level Summary

- **Online Platforms / Marketplaces Growing Rapidly** – Creating new work opportunities & challenges for individuals...These will continue to rise, similar to trends / impact from first-generation Internet companies, potentially faster / broader
- **Need to Shape Direction & Evolve Policies & Laws** – Industry participants (workers / businesses / governments) need to work together to be more aligned with rapidly emerging ways of doing business & creating work & recognize that emerging technologies / marketplaces can help solve for consumer & worker welfare
- **Innovative Online Platforms / Marketplaces Stand to Continue to Benefit Consumers** – As evinced by strong demand for their products & services...
- **Impact of Social Media (+ Feedback / Ratings) Should Not be Underestimated** – Empowered consumers increasingly – in effect – take elements of consumer protection into their own hands

Technology-Related Company Investing Observations

- **Booms / Busts** – In periods of material business disruption – like those brought about by the evolutions of the Internet – company creation typically goes through a boom → bust → boom-let cycle while wealth creation typically goes through a boom-let → bust → boom cycle.
- **Valuations** – There are pockets of Internet company overvaluation but there are also pockets of undervaluation – the one rule is that very few companies will win – those that do – can win big.
- **Platforms** – Race is won by those that build platforms & drive free cash flow over long-term (a decade or more).
- **Free Cash Flow** – Value of a business, over time, is the present value of its future cash flows.

ONE MORE THING....

Diversity Matters...It's Just Good Business

One of the things I have learned about effective decision making is that the best decisions are often made by diverse groups of people.

Saying or hearing these words is magic...

‘That’s really interesting, I had never thought of it that way before. Thank you.’

Thanks...

RAN OUTTA TIME THOUGHTS

Re-Imagining Design / User Experience

Key Design Concepts That Have Made a Difference... per John Maeda...

Google Search

*Hide complexity behind
a simple door*

Complexity - Wikipedia, the free encyclopedia
en.wikipedia.org/w/index.php?title=Complexity&oldid=9000000 - Wikipedia
Complexity is generally used to characterize something with many parts where those parts interact with each other in multiple ways. The study of these complex linkages is the main goal of complex systems theory.

Complex systems - Computational complexity theory - Complexity (disambiguation)

compLexity Gaming - Professional Gaming Organization

<https://www.complexitygaming.com/> -
Beginning today, compLexity's SjöV is set to compete in the SeatStory Cup III, hosted by ... compLexity Enters the Nexus: Welcomes Heroes of the Storm!
Roster - Sponsors - About Us - News

Complexity | Define Complexity at Dictionary.com
[dictionaryreference.com/browse/complexity](https://www.dictionaryreference.com/browse/complexity) - Dictionary.com -
Complexity definition, the state or quality of being complex; intricacy: the complexity of urban life. See more.
Complexity theory - Complexity analysis - Complexity class - Complexity measure

The longstanding discipline by Google to keep the homepage limited to a single search box has been key to maintaining its simplicity. Once a search term is typed into Google, it gets complex really quickly -- but you don't notice it at first.

Analogy: The Motorola Startac phone introduced a clamshell design that hid all the complexity -- to be revealed only when used.

Instagram

Remove choice to make things simpler

By removing the need to choose portrait versus landscape mode, Instagram made it easier for the user. Only square photos could be taken on Instagram -- which were uncommon at the time and could stand out. Instagram made things easy.

Analogy: Similar to when Steve Jobs removed the extra buttons on a mouse to have only one button. In doing so, the Mac became known for simplicity.

Tinder

Iconic gesture for choosing “thumbs up/down”

Traditional computers are grounded in the one- or two-button mouse -- which tends to promote "clicking" and minimal dragging. The touch screen introduced a new element: swiping. When supported by animation, it speaks of power.

Analogy: The "slide to unlock" feature on the Apple iPhone introduced the idea of translating an emphatic motion to a button press.

...Design Elements That Have Made a Difference... per John Maeda

Snapchat

Start with the activity to bias towards

Most imaging applications asked to turn on the camera, whereas Snapchat began the interaction in live camera mode. The invitation to snap a photo was immediate; and the secretive, self-destruct feature completed the addictive loop.

Analogy: A hammer's handle invites you to grasp it. In the design world that's called an object's "affordance" — it primes how you might use it.

Uber

Entirely remove a constraint with technology

Removing cash or a card payment from a taxi transaction was a huge technical innovation that achieved a better designed outcome. It's often easy to hope that design can solve a fundamental problem — technology is what enables quantum leaps.

Analogy: When cars were rear-wheel drive, the "hump" in the back seat was a bummer. Front-wheel drive cars completely removed that constraint.

Typeform

Sustain overall context so user is aware where (s)he is

By keeping the entire interaction in view, and easily referred to within a vertical scroll, the experience of inputting information feels less like the computer is in control; and leads to completion rates of survey information with an average of 60% (vs 10%).

Analogy: The acclaimed film "Birdman" used the cinematic illusion of "the single take" to achieve a similar effect to create greater viewer immersion.

*Healthcare – Continuing to Shift
Towards Consumer-Driven,
Value-Based Care =
Opportunity for Technology Solutions*

US Healthcare in the 21st Century Purchase + Delivery Change Forever

ACA and Government Effects

- With Cadillac tax coming into effect in 2018, employers are moving towards offering high deductible health benefit plans
- 72% of employers offer at least 1 consumer directed health plan
- 30% of Medicare payments will be tied to quality or value by end of 2016 and 50% by end of 2018
- Effective Jan 2015, Medicare has separate payments for chronic care management for “non-face-to-face” care

Lower Healthcare Costs by Utilizing Technology to Help Manage and Prevent Chronic Diseases

- In 2013, the US government spent \$591 billion on Medicare. However, Medicare is projected to have insufficient funds to pay all hospital bills beginning in 2030
- Chronic disease accounts for 86% of US healthcare costs, which can be reduced by enabling the healthcare ecosystem with innovative technology

More Drone Thoughts

Drones = Driving New Wave of Big Data Collection / Analysis

Point cloud models created from aerial LiDAR surveys measure conductor tension & vegetation encroachment, reducing inspection cost & injury.

Vegetation health maps created from multi-spectral imaging surveys help minimize use of water & pesticides & maximize crop yields.

High resolution photos of rooftops aid damage assessment for insurance underwriters & thermal imaging being used for building insulation inspections.

Stockpile maps created from aerial photo surveys provide faster & more accurate volumetric calculations for mining and quarry operations.

Consumer / Commercial Drone Development – Ranking Countries by Government Accommodation...

1) France & United Kingdom

- Both countries allow Beyond Visual Line of Sight “BVLOS” commercial operations.
 - In France, users must obtain a proper pilot’s license plus 100 hours of flying experience & 20 hours of drone training.
 - In United Kingdom, operator must be approved by the Civil Aviation Authority “CAA.”
- France & UK both have training certifications, weight categories & relatively mature regulatory framework.

2) Canada

- Early to allow commercial operations with Special Flight Operating Certificates and regulator takes holistic safety approach without requiring pilots licenses. In November 2014, Transport Canada issued blanket exemptions for drones weighing less than 2kgs, but restrictions are tight whereby UAVs 2kg or less have to avoid flying closer than 9km from build-up areas (e.g. group of buildings larger than a farmstead).
- Still lacks a comprehensive regulatory framework.

3) Australia

- Australia has a mature regulatory framework, but Civil Aviation and Safety Authority “CASA” is rewriting its regulations with the concept of a micro UAS rule. Yamaha has had success in Australia with its R-MAX unmanned helicopter.

4) Japan

- Led way on UAVs 20 years ago with development of the Yamaha R-MAX, but country did not develop regulatory structure, and has lost its early technical lead.

...Consumer / Commercial Drone Development – Ranking Countries by Government Accommodation

5) USA

- FAA is about 6 months into an exemption program that grants company-by-company exemptions (permits) for specific UAS applications. However, those permits come with restrictions & conditions that pose impediments to operators, such as pilot certification (in a real aircraft), mandatory separation from persons and structures (500 feet), a prohibition against night operations, & other parameters that are generally viewed as overly conservative & potentially not capable of being satisfied by many of the companies being granted those permits. Agency claims that statutes prohibit it from providing a more reasonable approach to UAS permits.
- FAA is trying to speed up its processes, and is now up to ~400 exemptions granted to companies. However, it still has a massive backlog with ~1,200 more pending. Additionally, the FAA is at least 18 months away from actual small UAS rules.

6) China

- Military allots only 1/5 of airspace to civilian use and is very sensitive about drone usage. While there is no blanket ban on commercial drone activity, China's Civil Aviation Administration requires anyone operating a drone >7kg to have a license. For flying drones <7kg, no license is required as long as it's below 400 feet and within operator's line of sight. However, this policy has caused confusion among operators and regulators. In one example, the Beijing Police briefly detained a well-known aerial photographer for filming the Forbidden City - they confiscated his quadcopter and later returned it to the photographer at the airport on his flight out of China.

• Other countries developing UAS regulations

- Mexico recently released framework including micro UAS rule.
- New Zealand is behind but has proposed a solid risk-based set of regulations.
